

The Return of the God of War [The Protector] Chapter 2864

The eleventh line of defense is crucial.

Never lose it!

You can say that.

The eleventh line of defense was lost.

The coalition lost a third!

If the seven countries after the eleventh line of defense fall again, it is equal to half of the loss.

Even in theory, it is undoubtedly a loser.

therefore.

All parties are more optimistic, fighting to the death on the eleventh line of defense!

The best to win.

There is no way to win.

In short, the eleventh line of defense must not be allowed!

But these lieutenants probably figured out Levi Garrison's routine.

He still has no idea, and there is a high probability that he has to give up the eleventh line of defense.

Then let the Seven Kingdoms retreat behind you!

The tenth line of defense is a routine.

He had no way at all, and he would not face the laboratory of the gods.

There is really no way except harassment.

Sure enough, after retreating to the eleventh line of defense, Levi Garrison didn't give the order to all be stationed here.

Instead, everyone was on standby, waiting for his orders.

It seemed that Levi Garrison would probably give the order to retreat.

This is exactly the same as everyone expected.

While observing the movements of the Gods Lab, the lieutenants waited for the above decision-whether to change the coach.

Levi Garrison was also hesitating.

Where did he not understand the importance of the eleventh line of defense.

What he thinks is to pull all the power over to fight frontally or other ways...

For example, continue to retreat, continue to think of ways...The army of the laboratory of the gods quickly passed the giant cow country and pressed up.

Very close to the eleventh line of defense.

To say that Levi Garrison is testing, in fact, they are also testing.

Their purpose is similar to that of Levi Garrison.

Levi Garrison was thinking of a way to force the chief priest out.

And they attacked in an all-round way, in order to force the existence of Daxia's two types of legends, of course, the premise is...

However, it is clear that the Lab of the Gods has the advantage.

Now they are aggressive and put the coalition forces into difficulties.

If this goes on, sooner or later, it will be forced out.

But Levi Garrison still had no choice.

“The main divine division ordered-the eleventh line of defense must be broken! This is very important!”

“They predict that the enemy will fight back frantically here! This is a big battle! The chief priest hopes that we must win it! Under the premise that they don’t make a move!”

The Lab of the Gods also received the order, ready to launch the most violent attack on the eleventh line of defense!

This battle is the key!

After being played, the real hole cards may be forced to come.

therefore.

Mr. X personally came to supervise the battle.

The powerful power of the Lab of the Gods should be used here.

This battle is crucial.

Soon Mr. X came in person.

There is also a strong man and top weapons and so on...

In addition to the vanguard team in the laboratory of the gods, the subsequent army gathered one after another.

The Lab of the Gods was also not anxious to attack, but gathered all the power.

Start a fight to the death!

The atmosphere of the war is permeated everywhere.

The coalition forces on the eleventh line of defense felt oppressed.

They are discussing one by one.

The enemy army on the other side is making drastic preparations.

There is no movement on their side, can they not panic one by one?

“What’s the matter with the commander?”

“Are there any plans yet? Wait, the enemy will come over!”

“Should he continue to evacuate? Then are we all over!”

“I don’t think he is suitable to be the commander-in-chief, so he should be replaced by someone else!”

“Now everyone is dissatisfied with him!”

...

The war was about to start, and now there are too many people who are dissatisfied with Levi Garrison.

This voice is everywhere in the coalition forces.

After all, the coalition forces are gathered from all sides. It's not Daxia.

They don't have the so-called feelings, and they don't know Levi Garrison's saving Daxia again and again.

They only saw Levi Garrison's ability to solve this matter.

Replace if there are any!

The soldiers are so, and the lieutenants are even more dissatisfied.

And the emotions are getting bigger and bigger.

I almost spoke in front of Levi Garrison.

"Believe it or not, Levi Garrison will still retreat next! Give up the eleventh line of defense and let all the seven nations behind him withdraw!"

A lieutenant said.
