

## The Return of the God of War [The Protector] Chapter 2887

Seeing the Star of Siberia, the gods guarding these ultimate powers appeared.

Mr. X knew it was half done.

The ultimate power appeared.

It shows that victory is not far away.

If the two types of legends of Daxia's Town Demon Division and Heavenly Master Mansion existed, it was about time to come out.

That's why he laughed.

It's completely different from other people's reactions.

"As long as these people are breached, nothing can stop us anymore!"

"To deal with them, I will do it myself!"

Mr. X said coldly.

soon.

He led many masters down from Star One.

It's time to fight back.

He missed the darkness devouring God very much now, if he were there.

Most of the masters in the front had to be swallowed by him.

The four powerhouses of Lucifer were not there, and they were all losses.

He has to do it himself.

This is Mr. X's first shot.

If Levi Garrison knew, he would definitely want to come and take a look.

As soon as Mr. X made his move, the audience was shocked.

He is really like a god, and his gestures are the power of overwhelming power.

It seems that he can control all the elements between heaven and earth.

He manipulates power, electromagnetics, and even everyone's brains.

"what!!!"

...

As soon as he shot, the coalition suffered heavy losses.

The powerhouses of the Siberian Star exploded one by one.

Many strong guards of the gods were all creeping on the ground, and they merged with the sea and disappeared directly.

This is the power of Mr. X.

He is far beyond the crowd.

Basically belong to the strongest under the main gods.

And it's not just Mr. X.
