

The Return of the God of War [The Protector] Chapter 2889

Now the Underworld Gods have no way at all!

All the cards are used!

Mr. X looked at the Underworld God and others with a sneer and said, "You are not a race of Forbidden Land 76 at all! You have only obtained some of their talents and skills!"

Until this moment.

Mr. X just understands!

It turns out that the gods of Forbidden Land No. 76 that they have been afraid of are a bunch of fakes at all!

It was only after direct contact that I found that none of them really existed!

All counterfeit goods!

Even the artifacts in their hands are different!

It can only be said that the materials and resources of No. 76 Forbidden Land were used, which is different from the No. 76 Forbidden Land God himself.

After this contact.

He finally understood.

There is no god in Forbidden Land No. 76 at all.

Just used the resources of Forbidden Land No. 76!

They are all counterfeit goods at all!

This greatly shifted their focus and allowed them to establish imaginary enemies one by one.

It's a shame to say it!

No wonder it has something to do with Daxia!

This is mostly Daxia controlling the resources of Forbidden Land No. 76...

As for the Dark God, it is also very simple, in fact it is an image created by Daxia.

Actually it doesn't exist!

Most of the people who pretend to be Tiance superintendents and the like!

The new master of the ancient Garrison clan and Daxia Yizhi Grandmaster are all images created by Daxia.

The truth does not exist!

It definitely doesn't exist!

Otherwise they would have appeared long ago!

In such a moment of crisis, they have appeared long ago.

Don't hide in the present!

After understanding all this, Mr. X shouted: "Forbidden Land No. 76 does not exist at all!"

"Dark God, the new master of the ancient Garrison clan and Grand Master Daxia Yizhi are all fake! They don't exist! Let's kill everyone!"

After shouting like this.

Everyone has nothing to fear.

Start crushing and killing the coalition forces...

For a while, the coalition forces suffered heavy damage, and all the positions they had just regained were lost again.
