

## The Return of the God of War [The Protector] Chapter 2928

His talents and various tricks and skills can not be displayed.

Under the control of this field, everything seems to be lost.

They were deprived of everything.

They are just ordinary people.

Even worse than ordinary people!

The real effect of the device “God’s Forbidden Zone” is here!

This is an area (world) controlled by the Warhawk Nation. Here, they can control everything.

The device function is activated, so that all the talents and tricks of this group of strongest people can’t be used.

It is difficult for them to move, even to lift their feet.

The bloodlines of which powerful races are directly sealed!

Even the lives of many people are rapidly drying up, no matter what kind of physique or race you are.

In this domain controlled by the Eagle Nation, anything can happen.

“Boom...”

Suddenly, a strong man next to Mr. X was directly crushed by an invisible force that suddenly rose, dripping with blood...

“what!!!”

Small blood holes began to appear in another person’s body.

Until the whole body is...

“what!!!”

Along with the hysterical screams, another person’s body was gradually corroded...

I don’t know what substance it is!

...

The screams of killing pigs and miserable scenes are everywhere.

Everyone in the army of the Kingdom of God is controlled in place like a lamb to be slaughtered.

He couldn't move at all, and could only wait for death to come.

And everyone's death method is different.

They were all butchered in unexpected ways.

Everyone is watching their companions being killed!

miserable!

It's too miserable!he key is not knowing how you will die?

When will I die?

Especially when I saw all my surrounding companions fall down, it was time for me to come right away.

This countdown to death is the most terrifying!

Both those facing death and those waiting for death made the most terrifying screams!

Even Mr. X panicked to the extreme.

People around me died tragically in various ways one by one!

Can he not be afraid?

Think about how mighty the Kingdom of God is. It wants to unify the world and become an enemy of the whole world.

But now?

One by one is like the lamb to be slaughtered.

Let others be slaughtered, and can't make any move to resist the struggle.

It's too miserable, too miserable!

How can it be?

How can it be?

This is the inner thought of everyone in the Kingdom of God!

Why can this device of War Eagle Nation easily target them!

They must be too familiar with us!

They know our strengths and weaknesses, so they can target them!

The Kingdom of God has never underestimated the enemy.

Even the war eagle country has always been regarded as a joke.

As long as the Eagle Nation does not dispatch, the chief priest will not come out.

But no matter what, for the main gods and the kingdom of gods, as long as the war eagle nation makes a move.

They still won it easily.

But who could have imagined that the War Eagle Nation should be so fully prepared and have such an artifact against them!

This is beyond everyone's expectations!

The technology of the Eagle Nation is above the laboratory of the gods!

Plus so familiar.

That's why it can be targeted like this!

All parties in the world coalition were stunned.

Controlled the army of the Kingdom of God so easily?

Even the strongest eighteen are the same?

So easy?

To know how miserable they were fighting, how many people were killed or injured, and how much they lost...

Basically facing a situation of no fight.

But in the hands of the War Eagle Nation, it was so easy.

This is too shocking...

Levi Garrison was also very shocked!

Originally thought that he could fight against the powerhouse of the main divine division.

I don't know if I don't need it now!

The Eagle Nation is terrible.

He and Huoyun Evil God must hide far away.

To escape from the territory controlled by the Eagle Nation.

Otherwise, they will also be restricted, and if they are targeted again, the trouble will be great.

War Eagle Country? ? ?

Levi Garrison touched his nose, and it was only at this moment that he realized that the threat of the War Eagle Nation was far greater than that of the Gods Lab.

They are the strongest!

If nothing else, just the setting in front of you is enough to explain everything.

What exactly does War Eagle Nation have?

Why is it so powerful?

Levi Garrison even remembered that he was arrested by Tianshield some time ago.

The weapons used by that group of agents, such as "Shen Shen No. 1", are extremely advanced, and can even be said to be the strongest.

Seeing that the laboratory of the enemy gods was about to be taken away by a pot.

But Levi Garrison was not happy at all.

On the contrary, his complexion was extremely heavy.

He is also not clear.

Does the device in front of you limit yourself?

He dare not try!

Engaged for a long time.
