

The Return of the God of War [The Protector] Chapter 2934

Moreover, the location chosen is to isolate everything from the world, even modern technology, the technology of the Gods Laboratory is not good!

These are enough to illustrate the unusualness of this place.

There is definitely a reason for the sudden suspension of the desertion! And this reason must make your scalp numb, and once it comes out, it will shock the whole world!

Everyone looked ahead with solemn expressions.

Cao Zhiguo said silently: "Unfortunately, I only read a little bit of the top-secret files. I heard several leaders say that they didn't mention the reason! I don't know what the reason is!"

"Let's leave as soon as possible! Tell the leaders of this message!"

...

Feel the fear in this place.

Cao Zhiguo immediately evacuated from this place with five teams.

"What? Leviathan was all wiped out? Isn't that impossible?"

When the leaders of Yanlongwei learned about this, their faces were unbelievable.

"Yes....."

After Cao Zhiguo explained everything in detail to everyone.

More and more shocked!

Kill three thousand Leviathans instantly, without any traces?

“Who did it?”

This is everyone’s question.

“This time I seem to have heard that the king is playing the legendary Heavenly Master’s Mansion and the Summon Division to frighten the kingdom of God. However, it is said that the Heavenly Master’s Mansion and the Summon Division do not exist! It’s fake!

Is it possible to be true? They do exist! Help us get rid of Leviathan! There is also the use of giant crossbows to shoot and kill the generals of the Kingdom of God...”

Cao Zhiguo analyzed the way.

“Do not rule out this possibility! But for the time being, this matter is kept secret! Never mention the destruction of Leviathan to anyone! Let others be suspicious, so that it can act as a deterrent!”

Under Xiao Liejun’s suggestion, this matter was digested internally.

It has not been passed on.

Classified as confidential.

This makes everyone suspicious-where is Leviathan trapped? What is Leviathan now?

...

Levi Garrison's rare leisure time over there, reunited with his family.

But he also has doubts.

In addition to Doctor Darkness, there is also why the Galactic Guardian League retreats suddenly, which also makes him feel a headache.

He couldn't figure it out, but he didn't think it was that easy.

It seems that I have to find an opportunity to go to War Eagle Nation to ask Black Hawk agents.

...

Since the kingdom of God was defeated.

The Guardian of the Galaxy Alliance immediately occupied the kingdom of God's future science and technology.

People, kill them.

Things, carve up.

After all, the things of the Kingdom of God are good things!

In the end, this future science and technology city was taken over by the War Eagle Nation, and the Black Hawk agents also brought a large number of agents from the Sky Shield.

The purpose is to check the whereabouts of the dark doctor and the brain of God.

It's just that I rummaged through the entire future science and technology country, and I didn't find the whereabouts of Doctor Dark or the slightest clue.

In the Black Hawk agent's opinion, the Dark Doctor is likely to make a comeback using the equipment of the Kingdom of God's base camp.

It now appears that he has completely abandoned this place.

And at this moment in an office of the Cancer Medical Center of the Xijincheng General Hospital of the War Eagle Country.

"Payton" was written at the door.

Apparently the owner of the office is Peyton.

This is a trump card of the medical center, with outstanding achievements in cancer treatment.

As for the people sitting in the office, no one thought it was Doctor Dark.

Who can think of it.

He was right under the nose of War Eagle Nation, in the best hospital in New Jincheng of War Eagle Nation, and he was still a first-class expert.

On the surface, he is just a doctor, loved by others...

But who can think of his deep identity?

He is just an ordinary person, commuting to and from get off work normally in the hospital...

Who can think of it.

Doctor Dark is here.

He has just finished the treatment for the patient, and this patient has been treated with him for two years.

Because of this, the Dark Doctor can hide.

No one would lean him against Doctor Dark!

There is no connection at all!

Many patients, and even many people in Xinjincheng, know Dr. Payton.

I have been conscientious and conscientious, where there is no time to do other things.

But no one knows.

This medical center is actually the private domain of Doctor Dark...The most frightening thing is that the entrance to this private realm is in the morgue!

Only through the morgue with heavy corpses can you reach the entrance.

This is something no one thought of!

After all, except for some specialized personnel, who would dare to enter the morgue.

Let alone know the back

And when the new Jincheng General Hospital was built, the private territory below was repaired.

As a result, after so many years, no one knew that the deepest wall of the morgue was actually connected to another place.

He is doing various experiments below and making a shocking scientific research project.

Otherwise, it would be too tired for him.

It is necessary to act as a good doctor, but also to undertake research in the laboratories of the gods.

The so-called big hidden in the city, the dark doctor hides it too well.

After an operation, Doctor Dark went straight to the morgue, opened the secret door and entered.

It's totally different inside.

There are many advanced facilities.

Among them, the brain of God is also there, analyzing something with equipment.

"The Eagle Nation has sent all the forces of the Sky Shield to look for us frantically all over the world. They are so familiar with us!"

"Even if you hide to this extent, it's only a matter of time before I find you!"

Said the brain of God.

This time the laboratory of the gods was destroyed, letting them know how deep and terrifying the water in the War Eagle Nation was.

First, the Eagle Nation is too familiar with them.

Second, there are forces or backers behind the Warhawk Nation.

It's scarier than anyone thought.

Even Doctor Dark showed a solemn expression: "Yes, I am so familiar with us! Even I have more detailed information! This place will be found soon!"

"So what should we do? What should we do?"

God's brain and others looked at the dark doctor one after another.

"Whether it is the World Allied Forces or the Galactic Guardian Alliance! They are the murderers who destroyed the Lab of the Gods! They destroyed everything we worked so hard to manage! Now there is no place for us to hide!"
