

The Return of the God of War [The Protector] Chapter 2936

The polar bear agent also handed the information to Levi Garrison: “Just this bit of information, what can I find!”

They all looked at Levi Garrison suspiciously.

I don't quite believe what he can do.

Levi Garrison took the information and looked at it. He smiled and said, “This information is indeed limited! Your Sky Shield is indeed powerful. In such a short period of time, the whole world has roughly found it!”

“But you also have overlooked points!”

Levi Garrison said this.

Everyone looked over.

“What do you mean? The point we overlooked?”

Agent Black Hawk asked anxiously.

Others are even more curious.

“Oh, yes!”

Levi Garrison looked at the people and said, “First, Doctor Dark is hidden among ordinary people. Have you ever thought about his life as? To be more specific, what is his profession...”

Levi Garrison reminded everyone that while everyone was shocked, they responded one by one.

The Black Hawk agent exclaimed, "Do you mean he is a doctor in reality?"

Levi Garrison smiled: "I heard that he loves to dissect all kinds of creatures and races! If he lives among ordinary people and can perform dissections at all times, then the profession of a doctor is the most suitable for him!"

"Yes, Doctor Dark was a doctor in his previous profession! In the lives of ordinary people, he is likely to be a doctor!"

Agent Black Hawk exclaimed.

Others also showed ecstasy.

Determined the direction!

Before, it was headless flies crashing and searching blindly and directionlessly.

But this time is different.

There is a direction!

Regardless of whether Doctor Dark can be found in the end, at least there is a direction now.

Just look for a doctor according to his profession!

This is the general direction is determined!

“anything else?”

Agent Black Hawk asked excitedly.

As soon as this direction came out, he was already excited.

Others also hurriedly looked at Levi Garrison and asked the second point.

“The second point, have you ever thought about which area the Dark Doctor is in? Specifically, in which country?”

Levi Garrison asked.

“this.....”

Agents Black Hawk and Agent Blade seemed to have all opened their minds at once.

There is a direction right away.

They are just looking for blindly all over the world!

I've been looking for the places where the gods' laboratories have been or the traces left by them.

I really haven't thought about where Doctor Dark is.

When Levi Garrison reminded them, they immediately reacted.

Start thinking in this direction.

"Could it be in Daxia? After all, the three-year-old Gods Laboratory that disappeared was in Daxia!"

The Polar Bear agent said.

"Impossible! If it were in Daxia, Mr. Ye must have noticed it!"

Agent Black Hawk said.

He looked at Levi Garrison and said, "Mr. Ye, just say it! Don't hang our appetite!"

"Let's put it this way, Doctor Dark is definitely not hidden temporarily! According to Da Xia's words-Da is hidden in the city!"

Doctor Dark has always lived among ordinary people, maybe decades or even hundreds of years! Or longer! Everything about him may not have changed from beginning to end! This is the hardest thing to find! “

After Levi Garrison reminded him.

The Black Hawk agent subconsciously said: “He is in the war eagle country!!!”
