

The Return of the God of War [The Protector] Chapter 2950

The key is how did Levi Garrison find them?

Even if it was as strong as the Sky Shield and those ancient forces, he played around in circles.

None of them can be found.

How did Levi Garrison do it?

This is so shocking.

“You are curious how I found it?”

Levi Garrison smiled: “You have to thank me. I discovered the four smoke bombs you got out first! Then I revealed it to the Sky Shield Bureau and sold it on the black market, so that the Sky Shield Bureau and the major forces would investigate. They are!”

Upon hearing this.

The two of Doctor Dark understood immediately.

In fact, he was nervous at first.

Although the four avatars thrown out had a good effect, he was an emergency method, and it was inevitable that there would be flaws.

It is easy for the Tianshield Bureau to react to these things, and it will not be necessary to investigate each target.

It is estimated that the investigation of two will have to find out.

But what he didn't expect was that all four targets were checked one by one.

The same goes for other major forces.

He still finds it strange.

It turned out that the problem was here, there was a middleman.

After Levi Garrison's dealings, they all believed.

Sometimes second-hand information is more convincing than first-hand information.

"So you were the first to find my four doubles? Suspicious too?"

The Dark Doctor looked directly at Levi Garrison.

"Yes! Throw this information to others and let them investigate! I simply ignore these four goals and continue to investigate! Fortunately, before you act, I found you! Should your plan be implemented too?"

Levi Garrison smiled.

Understood!

Now, Doctor Dark and the brain of God all understood.

It's also Wanwanren's thoughts.

It's going to be successful.

The result was found by the most unlikely person.

The Dark Doctor stared at Levi Garrison fiercely: "So you are actually very strong! I even suspect that the Heavenly Master's Mansion and the Sword Demon Division were both made out a few days ago?"

"It's actually very difficult to pretend to be them, at least you have to reach their strength to be believed! Although it is fake! But your strength is really strong! You are the one hiding behind!"

Levi Garrison smiled: "I think you are the most terrifying!"

The brain of God is still suggesting the dark doctor, the consciousness is going to escape or something.

Doctor Dark smiled: "It's impossible! We can't escape when we are planted in his hands! Since he can spot us and come alone, it means that his strength has overwhelmed us! Our struggle is useless! He at least The main divine division is one level!"

The brain of God sighed.

But this is a signal from Doctor Dark.

He immediately activated the vehicle's self-destructing program. Doctor Dark said that paragraph just now.

It was to let the mind of God understand that they had no chance of surviving if they fell into Levi Garrison's hands.

When he came alone, he was ready to catch the sky and the earth.

It is also hinting that he wants to turn on the automatic program of the vehicle.

After the brain of God understands it, it immediately starts the automatic program.

Let the vehicle go to the location of Lingmai by itself.

...

Two aircraft in the other channel had just been transported out, and suddenly the program started.

"Rumble..."

Flew out immediately.

Disappeared instantly.

Started everyone.

The two aircraft are specially designed by the brain of God, and a series of anti-detection devices are also installed in them.

In order to prevent the war Eagle Nation from being detected.

So he left almost silently from the sky over the Eagle Nation.

It was too late to find out.

Of course, it's okay to be discovered or even hit.

The self-destruct program will be opened automatically at that time.

It will still follow the set route map and go directly to the location of the spiritual vein to self-destruct.

And there are still two aircraft, with an extra stand-in.

To ensure the success rate.
