# The Return of the God of War [The Protector] Chapter 2952

He is desperate!

Desperate is more than just letting God's brain start an automatic program to unlock the spiritual veins.

He will also make a desperate move to kill Levi Garrison.

Regardless of how powerful he admitted that Levi Garrison was on the surface, he actually didn't put Levi Garrison in his eyes.

He was really jealous around.

He believed that Levi Garrison would not be alone, and there must be many strong people around him.

And when the time comes, when one is exposed, the Sky Shield and all the major forces will appear one by one.

This is what he fears most.

But fight it in the end.

Kill Levi Garrison first, then kill him to see if he can escape.

Of course, once the spiritual veins are opened, no one will be alive.

Sooner or later, it's dead, only to live longer.

But only when they can see all the pictures of destruction, they have a sense of accomplishment.

This is the thought of the two Doctors of Darkness.

Although not afraid of death.

But they are going to die in the end, it is a feeling of controlling all life and death!

He wanted to kill Levi Garrison in one fell swoop before Levi Garrison killed him.

It's just that Levi Garrison's thoughts were all right now.

 "Your strength is very strong, at least I can't see it now! When you enter the main divine division, it is not only your research, but your strength!"

Levi Garrison told the truth.

Doctor Dark looked really like ordinary people.

Very similar to himself.

It's a kind of people.

How can such people give up so easily?

impossible things!

Doctor Dark's body tightened subconsciously, obviously he was nervous.

Levi Garrison said he was right.

Levi Garrison looked at him and continued: "Just as I can't see through you, you can't see through me at all! But you will take the opportunity to attack me and give me a fatal blow! This can be done with your strength, so you Don't put me in the eye!"

Sweating!

Obviously you can see the dark doctor's cold sweat!

Levi Garrison continued: "Although the laboratories of the gods are all gods, in fact, you, an ordinary talent, are the most terrifying! It's just that you should be innocent to fight! Otherwise, the eighteenth master gods are not your opponents!"

Levi Garrison has met the eighteen "true gods" of the main gods.

Obviously their threat is not as big as this ordinary person.

God's mind also didn't think that in a short period of time, the two people could have so many confrontations.

And he seemed to know Doctor Dark for the first time, he didn't expect him to be so terrible!

Even the main god is not his opponent?

The Dark Doctor is powerful in the laboratory of the gods, but he hasn't done anything.

The legends everyone hears are all kinds of anatomy or biological research.

No one knows his strength.

Now that Levi Garrison said this, he was really shocked.

The Dark Doctor turned out to be the strongest in this organization.

I'm afraid it is hiding everyone.

It may be that he is devoted to research and is unwilling to show his strength.

"Well, you are right! In that case, let's fight!"

Doctor Dark stared at Levi Garrison.

In the small space, the raging atmosphere sparks everywhere!

A big battle between two ordinary people is about to begin…The brain of God has a very strange feeling.

These are obviously two ordinary people.

Why their aura is stronger than the "god" he knew.

And it's more than a little bit powerful.
