

The Return of the God of War [The Protector] Chapter 2955

The blade agent next to him said: "I just can't figure it out, there are people who are faster than us! Looking at the traces of the scene, there should be two groups of forces! They are even faster than us?"

The polar bear agent also said: "If the two forces were not in conflict, they would have nothing to say. It would be impossible for us to know! It might take more than three days to find Doctor Dark at our speed!"

The Black Hawk agent also frowned: "They should not be disturbed by the four targets, they came directly to the Dark Doctor!"

"But now I want to know where is Doctor Dark? He is dead! He must have been taken away by these two forces! The threat is even greater! Find me! Find it quickly!"

"Find it for me at all costs! Don't tell the head of the game for now!"

Agent Black Hawk was a little angry.

He also told Levi Garrison that he was taken away by other forces.

Levi Garrison doesn't know where, now the Dark Doctor is in his hand,

At this time they have come to Daxia.

Doctor Dark also breathed a sigh of relief.

If Levi Garrison wanted to kill him, he would have done it early.

There is no need to bring them here.

Taking advantage of Levi Garrison's effort to contact the Black Hawk agent.

The Dark Doctor began to inquire about the situation with God's Brain.

"Don't worry, the two aircraft have safely left the airspace of the Warhawk Nation! They are heading to the location of the spirit vein! It is expected to arrive soon!" God's brain is full of smiles.

As long as you leave safely from the airspace of the Warhawk Nation, nothing will happen.

And there are still two ships, double protection.

"Well, great! Now we can rest assured!"

Doctor Dark smiled: "I'm just curious about what Levi Garrison is going to do? It's okay to play with him!"

At this time, Levi Garrison came back.

"Not only will I not kill you, I will join me!"

Levi Garrison said this.

It surprised Doctor Dark.

Now many forces are looking for him just to join him and use him to know the secrets of the Lab of the Gods.

But Wan Wanwan thought that Levi Garrison had the same idea.

This is beyond his expectation.

“Of course, joining me does not give in to me! You can continue to do your research! If I guess wrong, you are not interested in the world of hegemony for power status!

Your interest and even your goal should be biological research! The reason why you joined the Lab of the Gods is to provide a better environment and resources for your research, right? “

Doctor Dark was taken aback.

Levi Garrison continued: “I have seen a lot of your research! You should devote yourself to studying the blood of all species in the world, and then create the most perfect species in your mind? The doomsday seed bank of Kangaroo country was what you wanted, right? ...”

The more Levi Garrison said this, the more shocked Doctor Dark became.

I was guessed too thoroughly by Levi Garrison.

“After joining me, I will not restrict you! You can continue to do your research, and I can even help you! Of course your position is mine!

And we still have a common enemy. If you want to take revenge, after all, it is the Warhawk Nation that got rid of the Lab of the Gods! “

Levi Garrison said.

After seeing Doctor Dark, he felt more and more that this person could not be killed.

The value of leaving him is a little bit bigger.

Especially his strength is unfathomable!

This is a surprise to Levi Garrison!

He will have a super boost!

When Levi Garrison said something, both Doctor Dark were stunned.

sincere!

They Levi Garrison felt sincerity.

It's not about using them to get something.

And given equal status, let them choose their positions.

I thought it was a dead end to be discovered, but I thought there would be such a chance!

Hearing God's mind was moved.

The Dark Doctor smiled: "You are not afraid that I promised on the surface, but in fact I have two hearts?"

“Fear, of course. But I still have to try, and I am confident that I can solve it!”

Levi Garrison said with a smile.

Even though Doctor Dark couldn't see through, Levi Garrison was still sure to hold him.

Even if he has two hearts, Levi Garrison will stop him.
