

The Return of the God of War [The Protector] Chapter 2966

God's brain nodded with lingering fear: "Yes! I personally experienced it at the time! Only with all the metal extracted from a meteorite fragment, I barely sealed the hole! It was almost sealed at the time! If it weren't for the help of the main god! It has happened!"

"This super spiritual vein has been accumulated for too long, too long time! Probably millions of years! I have accurately calculated the energy of the super spiritual vein, enough to destroy this world from beginning to end! No one can control it.!"

When God's brain said this, everyone took a mad breath.

It's exactly the same!

The four heads of Xiao Liejun and Cao Zhiguo have already understood.

This is the dragon vein found under Project Atlantis!

It's exactly the same!

This one is under the Antarctic glacier.

It may all be connected together!

And listening to the description of God's brain is the same as that of dragon veins!

At that time, the technology was limited and it was impossible to calculate it accurately.

Now the calculation is almost the same as the prediction!

Levi Garrison knew everything about it.

To put it plainly, this super spiritual vein contains energy that can destroy all super energy!

There is no way to control it!

Doctor Dark nodded: "Just what I said, some discoveries in the world are beneficial, but they may also be disasters! See if you can control it!"

Levi Garrison immediately asked: "That means that the two aircrafts you made are to go to the location of the spiritual veins, and then open the spiritual veins to release all the energy? To destroy the entire world?"

God's brain nodded: "Yes, the weapons and self-destructing devices of the aircraft are all aimed at destroying the spiritual veins! You must destroy the spiritual veins anyway!"

"That's it!"

"Completely finished!"

"Puff!"

Hear here.

Cao Zhiguo collapsed to the ground. Xiao Liejun and the others knew better than anyone else that once the super spiritual vein was broken, the least consequence would be to wipe out human civilization from this world!

Everything is erased!

The more serious point is to destroy the world in an improper way, directly changing from the inside out...

But those have nothing to do with everyone.

It is estimated that by that time, everyone will no longer exist...
