

## The Return of the God of War [The Protector] Chapter 2987

In the end, Yan Longwei decided to send a team to stare at the super spirit veins under the Atlantis plan.

Cao Zhiguo once again served as the team leader. Mainly related to the transfer time may not be enough.

Once the Atlantis plan under the super spirit veins also broke out.

Many things in Daxia were too late to transfer.

Only the second option can be started.

So you must stare!

In addition, Cao Zhiguo, after special arrangements, set up personnel everywhere in the passage to the seabed.

If there is a message at that time, it will be transmitted through layers, and the following message will be delivered as soon as possible to a great extent.

It's a bit of a beacon tower.

Pass each other quickly!

After all, this place isolates all signals.

Can only use this stupid way!

...

the other side.

They also got the message from Doctor Dark.

In the end, it was still not blocked.

But at this moment they have come to Western Continent.

Specializing in finding ancient forces.

It's still in the castle in Western Continent.

The crowd gathered.

Levilia has been brought here.

“Doctor Dark and their revenge have begun! They have broken the super spiritual vein they discovered!”

They also know all the information.

“Super spirit vein? Isn't that what the Daxia ancient monk needs?”

Obviously, this ancient organization knows the Super Soul Vessel better than many people.

“Then such a super spiritual vein, if it is to break out completely, it will be easy to destroy this world!”

“We have to withdraw too!”

...

This is a group of smart people, of course they don't choose to be tough.

“Report!!! The Dark Doctor is here!”

Someone came to report at this time.

That's because the information in the previous Gods' Laboratory was complete.

Know that there is an organization that studies ancient monks!

I probably know some.

therefore.
