

## I'm A Quadrillionaire chapter 1439

### Chapter 1439

The second was going from Eternal Realm to the next big realm.

This obstacle would also stop more than 99% of Eternals.

It was hard to say whether Celeste could progress past this.

Even if she could, it would be thousands, ten thousands, or even hundreds of thousands of years later.

How long would it take? No one could say for sure.

However, she definitely would not outpace the growth rate of the alluring body's desire.

The earlier the alluring body was aroused, the easier it would be to control and resolve.

On the contrary, the later this was done, the more difficult it would be to handle.

Celeste was already a Sovereign Ranker, so she was considered late.

Therefore, the power aroused by her alluring body was also quite significant.

It would be somewhat difficult to suppress it only with her own strength.

In fact, there was another solution that was significantly easier.

That was to have a man like David by her side at all times.

As long as she detected any signs of losing control, she would immediately carry out intercourse to reach a balance and a harmonious point.

However, this was also a temporary solution.

All in all, things might not be easy for Celeste in the future.

What she would face was more than just physical torture.

There was also pressure from her sect and her master.

One must know that Celeste was the youngest among the existing Sovereign Rankers in the Iridescent Sect, and she was also the one with the most hope of surpassing Eternal Realm.

Her master and sect placed high hopes on her, but such an accident happened in this low-level civilization.

Celeste had already anticipated the expressions her master and sect would have when they learned of her current situation.

They would probably be very disappointed.

“You little b\*stard! You have caused me a lot of trouble! How can I explain to my master and sect when I go back?” Celeste shook her head and said softly.

However, the only thing that comforted her was that she found Lorraine, Selena, and David.

Lorraine had an alluring body just like her.

Even if she was already useless, Lorraine could take her place.

However, she would need a lot of time, energy, and resources to cultivate Lorraine.

She hoped that by taking these three people back, she could gain the forgiveness of her master and the elders.

‘Forget it, stop thinking about this.

‘Now that things have come to this point.

‘It’s useless no matter how much I think about it.

‘I can only take one step at a time.’

Celeste then closed her eyes.

She started to carefully examine the condition of her body.

Ever since her alluring body was aroused, she had been suppressing the desire in her body, meaning she had no energy and time to check her body.

Now was her chance.

Celeste also wanted to see what was the difference between the alluring body when it was aroused and not aroused.

After David got Celeste’s answer, he had no choice but to accept it. Hence, he continued to lie on the bed trying not to think about that kind of thing.

## I'm A Quadrillionaire chapter 1440

Chapter 1440

Star Kingdom.

This was Celeste and Amadi's hometown.

Star Kingdom was a level 7 civilization.

Even though the level 7 civilization and the level 6 civilization were just one level away, the actual difference was worlds apart.

This was not a question of the difference between levels, but the dividing line between a mid-level civilization and a high-level civilization.

Crossing this dividing line was infinitely more difficult than stepping into Eternal Realm from Universe

Realm.

If one thought about how there was never an Eternal in the Milky Way after so many years, one would understand how difficult it was for mid-level civilization to step into high-level civilization.

Star Kingdom was not the same as low-level civilizations like the Milky Way and the Beast Galaxy.

There were not only various large, medium, and small planets in it, but there were also many continents floating in the void.

These continents were occupied by major forces and they would reproduce and inhabit there.

Only large forces with a certain level of strength had the opportunity to use the continents as a place to reproduce.

As for other small forces, they could only occupy various planets.

Planets and continents were the criteria for distinguishing different strengths.

The ultimate dream of countless forces was to have a continent of their own.

It was a pity that limited resources like the continents could only be occupied by powerful forces.

The Iridescent Sect and Star Mansion were extremely powerful forces in Star Kingdom, so they each occupied a continent.

The continent where Star Mansion was located was called Star Continent, while the continent where the Iridescent Sect was located was called Iridescent Continent.

They were named after their forces.

If a certain powerful force fell from grace and the continent was occupied by another force the name of the continent would change accordingly.

While David and Celeste were having spiritual intercourse...

-On a vast continent named Simmons Continent in Star Kingdom...

As the name suggested, this was the continent, the Simmons family of Star Kingdom occupied. Although the Simmons family was not as powerful as Star Mansion and the Iridescent Sect in Star Kingdom, their ability to occupy a continent proved that they were not weak at all.

Moreover, the cohesion of a family was far stronger than the cohesion of a sect like the Iridescent Sect.

On the ancestral land of the Simmons family on Simmons Continent, a middle-aged man suddenly opened his eyes. His whole face was contorted and a fiery rage was bursting out from his eyes.

The man's name was Nek Simmons, and he was the grandmaster of the Simmons family.

He was also beyond Eternal Realm.

At the same time, he was the big shot who publicly announced that his first wife's position would always be reserved for Celeste.

When Nek first met Celeste more than a thousand years ago, he had already launched a fierce pursuit of her.

It stood to reason that with his identity as the grandmaster of the Simmons family and his beyond Eternal Realm strength, this should be easy for him.

A few of the high priestesses of the Iridescent Sect had also married into various powerful forces.

This was also the reason why the Iridescent Sect and all major forces in the Star Kingdom could maintain good relations.

Amadi's mother was one of them.

However, this time, Nek was rejected.

Not only did Celeste reject him, even the Iridescent Sect directly rejected his marriage proposal.

The reason given by the Iridescent Sect was that Celeste was the successor trained by the Iridescent Sect, hence she would not marry an outsider.

However, Nek did not give up on this and had been publicly expressing that he liked Celeste very much, and the position of his first wife would always be reserved for her.

## **I'm A Quadrillionaire chapter 1441**

### Chapter 1441

In the blink of an eye, more than a thousand years had passed, but Nek still had not changed in the slightest.

If Celeste were not from the Iridescent Sect, he probably would have gone and taken her by force.

It was a pity that the Iridescent Sect was not something his Simmons family could intimidate.

Nek could not get Celeste now, and he would not allow any man to touch his sweetheart.

Therefore, during his contact with Celeste, he had secretly done something to her body.

Therefore, when Celeste and David first got together in the fantasy, Nek already knew.

Now, this was the second time.

How could Nek stand this?

The woman he had guarded for more than a thousand years was becoming more mature, more alluring, and more irresistible.

In the end, she was taken by another man.

How could Nek endure this as a man, much less a man who was beyond Eternal Realm?

Since he could not do anything to the Iridescent Sect, he could only vent his anger on the man.

“You son of a b\*tch! No matter who you are, I will definitely find you. I’ll tear you into pieces and smash your bones into ashes. How dare you touch my woman?! If I don’t kill you, I am not a Simmons. And Celeste, you b\*tch, you always act noble in front of me, but how long have you been away before you got yourself a man! You’re really something else.” Nek suppressed the anger in his heart and said through gritted teeth.

Although he did not know what the specific situation was like now, according to the seed he left on Celeste, it was an indisputable fact that Celeste had a man.

Nek also thought about whether it might have been forced. After all, Celeste’s allure also increased exponentially as her strength grew.

He was a normal man, so he probably would be tempted by her.

If she did not have the Iridescent Sect as her backing, there would probably be quite a few men in Star Kingdom who wanted to get her.

However, Nek knew that Celeste had left Star Kingdom and was sent by the Iridescent Sect to perform her duties as a Universe Enforcer.

Celeste was an invincible Eternal Realm Sovereign Ranker in those mid or low-level civilizations, so she could not be forced, meaning she did it voluntarily.

In a mid or low-level civilization, no matter what method one used, one could not threaten a Sovereign Ranker.

Unless they got something special in the ruins of a high-level civilization.

However, this possibility was so small that it is almost negligible.

It would be dangerous even if he, a person beyond Eternal Realm, entered a high-level civilization’s ruins, let alone the rubbish of the low-level civilization.

At this point, Nek really wanted to see what kind of man could make Celeste not hesitate to betray her master to do such a treasonous thing.

‘Is he better than me, the grandmaster of the Simmons family and a person beyond Eternal Realm?’

‘No!’

He had to investigate this matter to find out.

Since Celeste was no longer chaste, then someone like Nek would definitely not want her.

Nek would feel ashamed even if she were his concubine, let alone his first wife.

He also had to make the adulterous couple pay.

Nek stood up.

He wanted to leave the Simmons Continent and go to the Iridescent Continent.

He wanted to go ask the Iridescent Sect whether Celeste was their successor. How could she lose her virginity during a Universe Enforcer's patrol mission? Were they looking down on Nek or the Simmons family?
