Chapter 1780

The Fellowes family had money, and they were among the top three richest families in Star Kingdom.

However, they did not have a Sacred Saint, so they were faced with a life-and-death crisis.

David hoped Alba could hurry up.

The Lightfoot family was surely doing something now.

However, David had no idea how strong the people they sent this time would be.

They should not be just peak Sovereign Rankers.

Last time, two late Sovereign Rankers and so many powerhouses died without a trace.

What would a peak Sovereign Ranker do to him?

It was possible more than half of them would be partial Saints or even Saints.

|

‘I should lay low for now before I get to True Saint Rank,’ David thought to himself silently.

He could still handle a Pre-Saint, but if the Lightfoot family sent a True Saint, he would need the Fellowes family to help him.

The next morning, Alba came to David. She said she had decided on the location for East League Trading Company's headquarters. There were three suitable locations and she needed David to confirm it before she bought it.

David was excited upon hearing that.

'I'm going to start spending money!'

Of course, he would not delay something so important.

"Miss Fellowes, when are we leaving?" David asked.

"If you don't have anything to take care of now, we can leave right away. We should do this as soon as possible. If we can build the headquarters, others will believe we have the strength and then choose to work with us," Alba answered.

"No! No! What do I have going on? The most important thing for me right now is to develop the company and complete my master's task. Shall we go now?" David asked quickly.

"Of course! We're the only ones going this time so we can just go from the space crack. It'll be a little slow taking the merchant ship."

“Very good! It’s indeed too slow to take a ship. Miss Fellowes, I’ll take you later. Saints can travel in sixth-dimensional spaces, and it’ll be faster than moving through fourth or fifth-dimensional spaces.”

“Thank you, Master David!”

“You’re welcome. I need to thank you. You’ve worked hard for the company. I don’t know anything, so I am not much help.”

“What are you saying, Master David? We still need your help. I hope you can say a few good words to your master for us ”

“Of course!”

Even though David was saying that, he thought, ‘What master? I am my own master!

‘It’ll depend on whether you help me get to Sacred Saint Rank and then I’ll determine if I can help you out of your predicament.’

“Shall we go now, Miss Fellowes?”

“Okay!” Alba replied.

“Excuse me.”

After David said that, he held Alba’s hand.

This was the first time he brought someone into a high-dimensional space, so David did not know whether any accidents would occur.

Therefore, it would be better to hold Alba’s hand and keep her close to him.

This way, even if something were to happen, David could handle it immediately and protect Alba's safety.

Under normal circumstances, Alba could only travel in fourth-dimensional spaces based on her strength. When David held her hand, Alba's peerless face under her veil turned red.

This was the first time she held hands with someone the same age as her.

Strangely enough, Alba did not feel disgusted.

After they finished their discussion, they got ready to head to Large Trade Zone 7 at the Central Sacred Continent's West End.

That was where David rested the moment he came to the Central Sacred Continent and where East League Trading Company's headquarters would be.

As David held Alba and was about to tear the space apart, he stopped suddenly and stared straight ahead.

With his mind power, he sensed the space in front of him shifting.

Alba noticed something wrong with David, so she asked curiously, "What's wrong, Master David?"

David did not answer Alba.

Instead, he said loudly, "Who is it? Please show yourself."

The Novel will be updated daily. Come back and continue reading tomorrow, everyone!
