

Read I Am A Quadrillionaire Chapter 1916

I am a quadrillionaire chapter 1916-Before David could come back to his senses, three shocking sword lights started charging toward him from three different directions.

'What's going on?'

David was a little confused and his brain could not register what was going on for a while.

It was understandable for the enemy to take advantage of his confusion to attack David.

Fortunately, David was also ready.

'Still, what are those attacks from the left and the right rear?'

'How can he attack me from three directions?'

'Am I hallucinating?'

'No way!'

David could clearly feel the energy contained in those two attacks, which meant that they were by no means an illusion. They were real attacks.

'Does this guy also know how to summon clones?'

'Plus, they are stronger than mine.'

'Does he have two clones hiding in the dark?'

'Were those attacks made by the clones?'

'Impossible!'

David could not believe it.

His cloning technique was rewarded by the system and the system was a product of a God Tier Civilization.

Star Kingdom was just a level 7 civilization.

Plus, the Simmons family was only a second-rate family in Star Kingdom. So, how could anyone know about this technique?

In fact, what David did not know was that the attack by Sahar just now was not a real attack, nor was it intended to hurt him. It was only used to cover up this last trick.

Sahar did not summon a clone either. Instead, it was his famous stunt, the Tri-Element Slash.

Two bursts of mind power that were specially refined by Sahar were hiding in the shocking sword light just now.

The moment the sword light collided with David's Evil-Splitting Sword, the two mind powers hidden in the sword light shot toward David's left and right rear respectively.

After reaching a certain distance, the mind powers would turn into Sahar's shadows and give out two attacks before dissipating completely.

The essence of the Tri-Element Slash lay in the refinement of mind power that would make the attacks more powerful.

This had nothing to do with the strength of mind power.

Even if David had a strong mind power, he still could not replicate what Sahar did.

His control over mind power was still at its initial stage.

He could only defend himself or control the enemy.

Exercising this trick put a heavy burden on Sahar.

After the distributed mind power attacks, it would disappear completely.

Moreover, it would be lost permanently.

Not everyone was like David. With the help of the system, he had a mind power that was different from ordinary people.

After using this trick, Sahar needed to take a lot of treasures of heaven and earth that could increase mind power to recover.

If David obtained the Tri-Element Slash, a person with a strong mind power like him would double their power.

Just when the three attacks approached David, Sahar's voice was heard.

"David, the Tri-Element Slash consist of three real attacks, and its power and speed are several times stronger than normal attacks. Your Eternal Golden Body can't bear it at all. This is the fate of your ignorance."

David knew it was too late to do anything when he felt the attack approaching him.

His clone would not come out in time to save him.

Just like Sahar said, those were three real attacks and the speed and power of each of them were very strong.

Even if he used the Evil-Splitting Sword as a shield like earlier, he could only stop one of them.

The other two would then hurt the Eternal Golden Body.

In the end, the body would be smashed to pieces and David would also be hurt.

As expected of an old guy who had lived for hundreds of thousands of years, he had rich combat experience, and he did a good job during this battle. His attacks came one after another so smoothly.

David thought that the first attack was the opponent's trick, but unexpectedly, it was just a cover-up.

After he resisted the first blow, a more powerful attack arrived before he could recover.
