

Read I Am A Quadrillionaire Chapter 1945

I am a quadrillionaire chapter 1945-David could not wait to turn on the system after he returned to his position just now and sat down.

His Body had reached the Sacred Saint level 1 and his combat power had also reached beginner Sacred Saint Rank.

However, his Mind was still at True Saint level 10.

He had more than 28.1 million lavish points left.

So, he clicked directly on Mind.

[This upgrade will consume 10 million lavish points. After the upgrade, the host's Mind will change from the original True Saint level 10 to Sacred Saint level 1. Please confirm whether to proceed.] 'Yes!' [The host's Mind is upgrading, please wait.]

David closed his eyes again, feeling the swelling pain caused by the growth of his mind power.

Every breakthrough of his Mind was a kind of torment.

It would be better if it was a small realm, but if it was a big one, it would make him feel as if his brains were being blown out.

Ordinary people would not be able to endure it.

Even if David's willpower was extremely strong, he was unwilling to experience it a second time.

If he wanted to improve his strength, he had to endure pain. This was inevitable.

David did not know if other people would encounter this when they were breaking through, but he did.

Even so, he understood.

Others only had a slight chance to break through after a long period of accumulation, and they might not necessarily succeed.

Meanwhile, he got this chance from the system, and he would not fail.

If he could not bear even a little pain, how could the system continue to favor him?

There were pros and cons to this!

In contrast, David knew that what he had gained was far more than what he had lost.

After Alba left, she found Valerio again.

“Alba, how was it?” Valerio asked.

“Grandpa Vai, Master David said that he and his master will continue to help us. They will not run away just before the battle no matter who the enemy is, even if it is the head of the Saints Association,” Alba replied.

“Oh, Master David is confused! He has lived in seclusion for too long and he probably doesn’t know what the head of the Saints Association represents. The head is the most powerful person in Star Kingdom and the person with the most authority. He can also decide the life and death of countless forces with one word. Even if David and his master won’t run away, they won’t be able to help us and they will also offend Zenon. By then, their lives in Star Kingdom will be absolute hell,” Valerio sighed.

“Then what should we do?”

When Alba heard that David and his master might offend Zenon and have a hard time in Star Kingdom, she began to panic again.

In reality, Alba had never been in such a mess before.

She had always been a woman with both beauty and wisdom. Moreover, she was also a famous talent in the Central Sacred Continent and even Star Kingdom.

Even if she was arranged by the Fellowes family to marry Anders from the Palmore family, she had never been so nervous and flustered.

However, after meeting David, Alba’s IQ kept dropping.

Especially if the matter was related to David.

It was as if she had lost her ability to think.

“Alba, did Master David say anything besides that he wouldn’t run away?” “Master David said that we should talk later. He seemed very anxious just now, and that he might want to contact his master,” Alba recalled and said.

“Then let’s wait for Master David to finish his work before we talk to him.” “Okay! I’ll talk to Master David later.” “Alba, what do you think of Master David?” Valerio asked suddenly.

“Huh? What do you mean?” Alba’s brain could not register what Valerio said for a moment.

“How do you feel about Master David?” “He’s amazing, of course. Not only is he young, powerful, and unassuming, but he’s also kind to others. Plus, he’s a man of his word. He’s a man with only merits,” Alba replied honestly.
