

Read I Am A Quadrillionaire Chapter 1947

I am a quadrillionaire chapter 1947-David clicked on Body and a window popped up.

[This upgrade will consume one million lavish points. After the upgrade, the host's Body will be upgraded from the original Sacred Saint level 1 to Sacred Saint level 2. Please confirm whether to proceed.]

'Yes!'

Next, his Body became Sacred Saint level 2.

Then, level 3, level 5, and level 7. Finally, he reached Sacred Saint level 10.

So far, he had finished upgrading his Body.

David's combat power had also reached peak Sacred Saint Rank.

At this time, he was no longer afraid of anyone in Star Kingdom.

Even if he met someone who was also a peak Sacred Saint, he could still win the battle.

One could not forget that David had a clone.

Once cast, there would be two peak Sacred Saints, coupled with the assistance of his two weapons, the Evil-Splitting Sword and the God of Thunder Hammer.

Among the six known Sacred Saints in Star Kingdom, only one or two were peak Sacred Saints.

Hence, even if the six Sacred Saints joined forces, David would not fear them.

Although there was no guarantee of victory, he would at least not be defeated.

He felt excited just thinking about fighting alone against the six Sacred Saints of Star Kingdom without being in a disadvantageous position.

However, David was still not satisfied with this.

Peak Sacred Saint Rank was not his goal.

When he proposed the figure of 400 trillion Star Dollars to the Fellowes family, he was doing that so he could surpass Sacred Saint Rank.

A peak Sacred Saint was not yet invincible.

Only by surpassing Sacred Saint Rank could one be truly invincible in Star Kingdom.

Even if there were six more Sacred Saints in addition to the original six, David could still easily crush them to death like ants.

David did not like an evenly matched battle or a battle where he narrowly escaped death.

He liked to crush his enemy with his strength without the enemy being able to resist at all.

This was the best way to fight.

It was like when he was crushing Pre-Saint Nek as a True Saint.

He wanted to let the enemy experience what was true despair.

After feeling the surging power in his body for a while, David continued to open the system. Then, he set his sights on the Mind column and clicked on it.

[This upgrade will consume one million lavish points. After the upgrade, the host's Mind will be increased from the original Sacred Saint level 1 to Sacred Saint level 2. Please confirm whether to proceed.]

Of course, David chose yes without hesitation.

Then, he upgraded himself to Sacred Saint level 2, level 3, level 4, and all the way to level 10.

When David's Mind reached Sacred Saint level 10, there was a sudden buzz in his head.

He seemed to have broken some kind of shackle, like he had undergone a metamorphosis.

A lot of information flooded his mind.

David did not have time to check the information as he desperately wanted to know what level his combat power had reached.

He wanted to know if he had gone beyond Sacred Saint Rank and what realm came after Saint Realm.

He quickly opened the system, and his eyes were locked on the combat power column.

[Combat Power: Partial Pre-Deity Rank]

'Partial Pre-Deity Rank?

'So, does it mean Deity Realm is after Saint Realm?

'Saint Realm and Deity Realm sounded fine.

'However, calling myself a Deity feels a bit awkward.'

David thought about it for a bit but quickly ignored it.

It did not matter what realm he was in, he would be fine as long as he could crush Sacred Saints.

As for whether it was Deity Realm or Demon Realm, it was all the same to him.

As long as his combat power improved, the rest would not matter.

A name was just a label.

After he was relieved, David began to check the information that had just flooded into his mind.

It took a while, but he finally understood after he finished reviewing the information.

After Saint Realm was not Deity Realm as he had initially thought, but instead, it was Divine Realm.

This Divine Realm was not at the same as God Rank on Earth.
