I am a quadrillionaire chapter 2010-At the same time, the energy in his body exploded.

Like a storm, it swept across the sky and earth.

The Fellowes family members on the ground who were under Saint Realm were all thrown to the ground by this strong pressure.

Only Saints could barely stand still, and this was only because they were not being targeted.

Zenon narrowed his eyes.

'He's a peak Sacred Saint indeed.

'No wonder he dares to be so reckless in front of me.'

Zenon did not want to fall behind, so he also showed his peak Sacred Saint energy as well.

The cores of the Fellowes family behind them had already backed away.

The two bursts of energy from the peak Sacred Saints intersected and collided in the air.

The static electricity generated was more powerful than lightning.

Crackle! Crackle!

A gust of wind and lightning formed around the two of them.

It looked like the scene from the apocalypse.

They had not started fighting yet, but the collision of their energy made everyone feel hopeless.

Even the True Saints felt fear in their hearts and had an urge to escape.

A Sacred Saint was already an existence they could not match, much less a peak Sacred Saint.

David's main form kept Alba behind him, so she was unaffected.

He was a partial Pre-Deity and he had surpassed peak Sacred Saint Rank.

Although he was just partial, they were not on the same level at all.

A partial Pre-Deity had half a foot in Divine Realm.

The clone also suppressed his strength.

Otherwise, Zenon would have knelt down and begged for mercy.

Firstly, David did not want to attract too much attention, and secondly, he wanted to practice with Zenon and gain some combat experience.

The strongest combat power in Star Kingdom was peak Sacred Saint Rank.

David estimated that he would not be able to find a partial Pre-Deity to have a friendly duel with.

Therefore, he could only settle for the next best thing.

Under such great pressure, besides David's main form and Alba, who was protected by him, there was hardly anyone who could keep their eyes open.

When everyone felt the pressure on their bodies suddenly getting lifted, they knew the Sacred Saints had started fighting.

So, they quickly opened their eyes and looked into the sky.

David's clone and Zenon were gone.

They only saw a huge black hole in the sky.

Even True Saints felt their scalps turning numb from the terrifying pressure emanating from the black hole, let alone anyone below Saint Realm.

The black hole was a channel directly connecting them to eight-dimensional space.

Only the pressure in eight-dimensional space could be so strong.

Not even True Saints could withstand the pressure if they entered the eight-dimensional space.

The two Sacred Saints actually broke through several space barriers at the same time, forming a black hole.

This was completely different from tearing space and creating space cracks.

Boom! Boom! Boom!

Loud noises began to come continuously from the black hole.

Apparently, the battle inside had started.

At the scene, only David's main form could see through the black hole and watch the situation inside.

Of course, he did not need to see it because the clone that was fighting Zenon was also controlled by him.

The peak Sacred Saint deserved to be regarded as the strongest combat force in Star Kingdom.

A random blow had the power to destroy the world out there.

If they were fighting in three-dimensional space, a few blows from them could smash the entire Central Sacred Continent to pieces.

The spies of the major forces hiding in a distance could also see the huge black hole.

Everyone still did not understand what was going on.

Why was there suddenly such strong winds and lightning? There was even a black hole now.

Even from far away, they could feel the horror of the black hole.

As they were looking at it from a distance, there was a huge black hole in the sky above the Fellowes Residence. It was like a huge mouth that was trying to swallow everything nearby.

It was extremely frightening to watch.
