

## Read I Am A Quadrillionaire Chapter 2066

I am a quadrillionaire chapter 2066-The nine chains were broken into countless pieces and scattered in all directions.

The sisters were relatively close, so they were all knocked away by the shockwave.

“Pfft!”

They vomited mouthfuls of blood.

Their bodies were inherently weak, so how could they resist such a strong shockwave?

“Master!” The four shouted loudly.

However, even when they were vomiting blood, they did not forget to worry about the safety of their master.

This showed that the master’s status in their hearts was even more important than their own lives.

David put his sword away and stood up.

His eyes then fell on the smoky forbidden area.

Since the person hidden in the forbidden area was from a high-level civilization and the master of the four True Saints, it was clear that his status and strength would not be too low.

David was only trying to force the person to come out with that attack just now. He did not intend to hurt him at all.

Based on the two blue lights seen outside the Iridescent Continent, David knew this person would not be easy to deal with.

After Eira and her sisters regained their composure, they saw that the forbidden area was completely destroyed by David’s sword. However, their master did not react at all.

Hence, they thought something had happened to their master.

They looked at David with wild eyes.

They looked as if they were dying to eat David’s flesh and drink David’s blood.

David did not care about how they were looking at him.

At the beginning, he was an ant in the eyes of these four old women, but now to him, they were the ants.

The four sisters were very anxious.

Although the master was omnipotent in their hearts, he had just woke up and was interrupted before he could finish absorbing the alluring body.

All four of them believed that their master had not recovered. Now that he was attacked again, it must be very dangerous for him.

Just when they were about to cast Soul Blaze again to fight David desperately to buy some time for the master, David spoke.

“Since you’ve awakened, why don’t you show yourself?”

There was still no sound coming from the forbidden area after a while.

Therefore, David could not help frowning.

He guessed that the reason why the other party did not respond was probably because he was still recovering.

Without knowing the specific strength of the hidden person, David did not dare to give him too much time.

If after fully recovering, the person’s strength reached PreDeity Rank, then it would be bad.

Now, he did not have the strength to deal with a Pre-Deity.

“If you don’t show up, don’t blame me for being ruthless.”

The tip of David’s sword was pointed straight into the depths of the forbidden area.

At this moment, Lorraine in his arms suddenly said, “David, let’s go!”

She was still worried about the person hidden in the dark.

If this person could make her four teachers dedicate everything to him, then he was surely not simple.

Moreover, he came from a higher civilization.

The unknown was always the most frightening.

“Don’t worry, I know what I’m doing. If you are afraid, you can leave first,” David replied.

“If you don’t go, I won’t! And I still can’t use my strength,” Lorraine buried her head in David’s arms and whispered.

David ignored her.

Right now, he should force the hidden person out first.

When he was about to start again, the four figures in the distance approached quickly.

It was the four sisters who had cast Soul Blaze again.

David swung his sword impatiently and a red sword light cut towards the four of them.

As Lorraine had said, these four old women had the blood of countless lives on their hands.

Therefore, they deserved to die.

David would not hold back when he was dealing with such people.

At this time, two blue lights shot out from the forbidden area.

One collided with David’s red sword light and disappeared.

The other one was divided into four parts. Then, they wrapped around the four sisters and extinguished their Soul Blaze.

The eyes of the four people showed surprise.

‘Master is fine!’

Immediately, a voice came from the forbidden area.

“Tsk tsk tsk, how bold! How dare someone from a small level 7 civilization touch my slaves!”
