

## Read I Am A Quadrillionaire Chapter 2068

I am a quadrillionaire chapter 2068-“I don't care who you are! Please take your people and leave Star Kingdom immediately and don't come here again, otherwise...” David did not finish speaking but gave the other party a little room for imagination.

“Otherwise what?” the other party asked with interest.

“Otherwise, don't blame us for trying our best to kill you.” David sounded determined.

He knew in his heart that he could not show any cowardice when dealing with people from higher civilizations.

He had to act his toughest to deal with them.

Moreover, he had to put on a resolute attitude that hinted at the fact that even if he died, he would drag another with him.

Even if he pretended to be weak and sucked up to those guys, they would not be merciful in the slightest.

In their eyes, they only considered benefits.

They would do anything if they had enough benefits, just like when the Tuffin family of the Milky Way invaded Earth.

Everyone treated Pavan as a god.

However, he wanted to plant a slave mark on Earth and enslave Earth so that the people on Earth would not be able to make a comeback.

If David did not have the system, Earth would already become Pavan's slave planet.

It was the same now.

To people of a higher civilization, Star Kingdom was the same as Earth was to Pavan.

It all depended on whether the benefits were worth taking action to obtain.

In this situation, only by letting the other party see that all humans in the Star Kingdom were determined to fight to their deaths could they dispel any ideas of invading.

David did not know if this person had any thoughts or intentions of invading Star Kingdom.

However, he had to be prepared.

“Hahaha!”

Crazy laughter came from the forbidden area.

Immediately after the laughter stopped, the person said with sarcasm in his tone, “You’re from a mere level 7 civilization and you want to kill me? Should I say you are naive or ignorant?”

“It doesn’t matter if I’m naive or ignorant! If you don’t believe me, you can try. Even if we fail, we will leave you a profound lesson.”

“Are you threatening me?”

“It’s not a threat, but I’m just telling you that we, the people of Star Kingdom, will give everything, even our lives, to protect our homeland. I hope you don’t violate the bottom line, otherwise, we can only choose to fight to the death against you.”

Although David was calm, there was an undeniable firmness in his tone.

It seemed that if someone really violated this bottom line, no matter who they were, he would risk everything and do what he said.

‘Tsk tsksk...’

A sinister laugh came from the forbidden area.

He seemed to be mocking David’s ignorance.

“Boy, you threatened the wrong person. You have to know that in the face of absolute strength, any ruthless words will speed up your demise. You have such narrow views, and you dare to say that you want to kill me? How hilarious!

Today, I’ll show you the terror of a higher civilization. Even if you do everything, you’re nothing more than a nest of ants that can be destroyed with one kick.”

After he said that, a dazzling blue light shot into the sky from the ground.

It was more majestic than the two that David saw outside the Iridescent Continent.

It seemed like it was about to penetrate the entire sky.

As the opponent’s energy continued to rise, David gradually narrowed his eyes.

On the Central Sacred Continent, Sid was dealing with the affairs of the Saints Association.

Suddenly sensing something, he raised his head and looked through the endless void and in the direction of the Iridescent Continent.

Then, he dropped the information in his hand, took one step forward, entered the space crack, rushing towards the direction of the Iridescent Continent.

At the same time, the five known Sacred Saints of Star Kingdom: Zenon of the Palmore family, Vaughn from the Bamford family, York from the Ginger family, Primrose from Evergreen Island, and Steel from Blade Manor, all sensed this huge energy that suddenly appeared.

Immediately, they tore the space barrier, entered the eightdimensional space, and rushed over as fast as possible.
