

Read I Am A Quadrillionaire Chapter 2106

I am a quadrillionaire chapter 2106-What would happen to Star Kingdom then?

Would it be at the mercy of the Feather family?

Everyone knew that David had killed a direct descendant, so when the Feather family arrived, Star Kingdom would definitely end badly.

Everyone was shocked speechless by the sudden bad news.

Zenon and the others even started to plan in their minds. When they returned, they would start to settle their family's property and bring the important family members with them to leave Star Kingdom, as it was doomed.

They would find a remote low-level civilization to live out their days.

Although the resources over there would definitely not be as rich as the ones in Star Kingdom, it would be better than staying here and waiting for death.

They knew David's strength now, so they did not dare to question whether it was wrong for David to kill Azul.

They could only think of a way out in secret, hoping to escape the catastrophe and continue to live.novel.xo

"Yes, I didn't catch up with him. I tried my best," David said with a hint of apology.

He did not want to have things developed to this point.

He had no choice, but since it happened, someone should be responsible for it.

It was useless to worry about it now.

Who could guarantee that after they let Azul leave, he would keep his promise and never step into Star Kingdom again, nor would he expose the location of Star Kingdom?

Thus, David did not regret his actions.

If Azul swore to leave when he got the sword, David would have trusted him.

However, Azul went back on his words.

There was no way David would be fooled again.

“David, you don’t have to blame yourself! It’s fine as long as you tried your best. With Azul’s vile character, even if you had let him go, he would still go back on his words. You did the right thing. I support you. That guy deserves to be killed to avoid future troubles,” Lorraine said from the side.

After getting a large amount of vitality from the Stone of Life, Lorraine was pulled back from the brink of death.

She was still a little weak, but it would not affect anything.

“That’s right, Master David! We all support you. Those who renege on their promises should not be given another chance, otherwise, they will definitely come back and harm you,” Nova also added.

“We all support you, Master David!” The remaining seniors of the Iridescent Sect all echoed.

When Zenon and others saw everyone expressing their support, they had to speak up as well, especially when they just chose to let Azul go, which was the opposite of David’s approach.

What if David decided to settle scores with them if they did not express their opinion?

With David’s current strength, dealing with them would be as easy as pie. None of them could escape if he acted.

“Master David, we were blinded just now, and that’s why we wanted to let Azul go. Fortunately, you didn’t listen to us, otherwise, we would be the sinners of Star Kingdom.

Judging from the temper of that punk from a big family, he would definitely come back for revenge in the future. Thank you for stopping us from making a mistake,” Zenon said gratefully.

“Zenon was right! We want to thank you, Master David, for stopping us from making a mistake.”

“Thank you, Master David!!!”

The group then collectively bowed to David again.

“That’s enough. Actually, I didn’t want to ask for your opinions. I just wanted to distract Azul and make him lower his vigilance. I didn’t expect to be unable to kill with one blow. Alas, I feel so embarrassed. Those who come from a level 9 civilization are indeed amazing!” David exclaimed.

“Master David, you don’t need to be embarrassed. We should be the ones feeling embarrassed. As a part of Star

Kingdom, we couldn’t even help out.”

At this time, Sid suddenly asked, “Master David, how far is Star Kingdom from Leila? How long will it take for the Feather family to get here after receiving the message from Azul? Can we use this time to make some preparations? We can’t just surrender without doing anything, right?”

David looked at Sid.

He was truly considerate of Star Kingdom.

As expected of an old man respected by countless people, he was really different from the other Sacred Saints who only had their own interests in mind.

How would David not understand what was in Zenon’s and others’ heads?

They just wanted to please Azul so that when Azul came back for revenge next time, they would have a chance to survive.

Now, the chance was gone.

They were all probably busy thinking about how to take their family out of Star Kingdom and find a safe place to hide.
