

Read I Am A Quadrillionaire Chapter 2110

I am a quadrillionaire chapter 2110-In the end, she learned the general truth of the matter from her four teachers.

Lorraine was unwilling to give up her life and become a sacrifice, so the two sides fought.

That was why they overturned the forbidden area and alarmed Nova and the others.

Then, Azul woke up.

At a critical moment, David arrived.

After listening to Lorraine's narration, David and Nova understood the reason for the sudden increase in Lorraine's strength.

It turned out the four True Saints sacrificed one of their ranks in exchange for it.

Only the loyal Eira and her sister would do such a crazy thing to wake up their master.

First, they sacrificed one rank, dropped from True Saint Rank to Pre-Saint Rank, and then sacrificed themselves for Azul to absorb them and recover from his injury.

It was unclear what Azul did to bewitch them, as they did not even come back to their senses after more than a million years.

They might have been brainwashed since childhood. In the

hearts of the four, Azul was everything to them and the motivation for them to live, even at the cost of their lives.

In reality, this kind of person was the most terrifying.

They could even give up their lives, which meant that they had completely lost their minds.novel.xo

Nova thought that Lorraine came from the same planet as David, and that was why she was extremely talented.

Unexpectedly, her strength was improved by the four reputable elders using forbidden techniques.

It seemed that David was still the only one blessed by the Gods.

After this, David began to think about where he would go in the future.

The plan to live in seclusion on Earth had to temporarily be set aside.

He would be Star Kingdom's first line of defense three hundred years later when the Feather family struck.

His success or failure was directly related to the life and death of Star Kingdom.

So, David also had to attach value to this.

The main consideration was that he had no idea what kind of people the Feather family would send.

Would they send a Pre-Deity or a Primordial Deity?

The unknown made David dare not be careless in the slightest. He had to try his best to make preparations for this.

In the end, he decided to use the Iridescent Sect as his base of operations and bring Celia and the others over.

It would be completely safe here now.

The atmosphere for cultivation was also very good.

Celeste grew up here, so she would be happy to live here. "Nova, I want to bring Celeste and Celia back to live in the Iridescent Sect. What do you think?" David asked.

"Great! Of course, that'll be amazing! Master David, don't worry, I will definitely teach them well and let them all achieve Eternal Realm," Nova happily replied.

She wished David would take everyone back to the Iridescent Sect so that David would definitely live here too.

He was a Partial Pre-Deity, and he was the only one in Star Kingdom.

Once David lived here, the Iridescent Sect would become a sacred place in Star Kingdom.

"Alright then, I'll pick them up later. I'll have to trouble you in the future, Nova."

"It's no trouble! No trouble at all!" Nova beamed.

"Nova, don't call me Master David anymore. It sounds so foreign. You should just call me David."

"Well... Alright!" Nova agreed after thinking about it.

With what she knew about David, the other party was not the kind of person who would care about such small things.

Calling him Master David did put a certain distance between the two sides.
