I am a quadrillionaire chapter 2156-“Beanie, since I dared to stop you today, that means I’m already prepared. If you’re sensible, you should just leave your things here and we won’t make things difficult for you, otherwise...”

“Otherwise?” Beanie sneered.

“Otherwise, don’t blame us for being cruel and ruthless when we kill your entire team.”

“Really? Come and see if you can do it.” Beanie smiled slightly, not showing any sign of fear.

What was she afraid of?

If she was leading the team alone, she would not know what to do in this situation.

However, he had a bigwig in the team.

If the enemy caused the person who was protecting the bigwig to take action, then the consequences would probably be more serious than the encirclement and suppression that year.

“It seems that you really don’t intend to hand over the goods, do you?”

“What should I hand over? I don’t know what you’re talking about! We are just going to Sole to do some errands, but you stopped us here,” Beanie said, pretending not to understand.

“Really? Beanie, since we stopped you, we already know the truth, so don’t pretend to be confused. It’s useless. This time, we’ve gathered all the forces entrenched in the Demon Ridge. You can’t resist us. I’ll give you one last chance. I’ll let you go, but you have to leave your cargo here. Or else, I won’t let you leave either.”

Beanie’s face gradually darkened.

It was not that she was afraid of the other party.

With David around, she was not afraid of anyone.

Even if all the robbers of the Demon Ridge attacked at the same time, they would only be digging their own graves.

No matter how many ants there were, they would still be ants and could never become giants.

One just needed to stomp on the ants a few more times.

However, what the man said just now enraged Beanie.

Those guys should have known about the Beast Crystal, and that was why they gathered all the forces of the Demon Ridge to make a move.

The value of the Beast Crystal was too high.

The forces entrenched in the Demon Ridge would definitely not be able to resist such temptation.

Plus, there was even a complete Silver Flood Dragon corpse here.

If they could get their hands on it, every participating force in the Demon Ridge would receive a sum of money that was enough to keep them happy for a long time.

They could even stop doing this kind of work.

However, what puzzled Beanie was who spread the news.

Could it be the Chez family?

It was most likely them.

Except for the Chez family, Beanie could not think of anyone else who would do that.

Moreover, only the Chez family knew about the Beast Crystal.

'The Chez family!

'I will make sure to make them pay when we go back from Sole.

'I want to let them know that the Nacht family is not weak.'

At the same time, Beanie was glad.

Fortunately, she asked David to stay when she found out he was also going to Sole and then went on this journey together with him.

Otherwise, she would not have the ability to deal with today's situation.

She would have no chance of escape at all.

It was no joke that the Demon Ridge could become a place that the surrounding merchants feared.

Although they were just mobs, one should not underestimate them after they were united.

However, David was here, so Beanie was not afraid at all and said very arrogantly, “I should be the one saying that. You thugs, get out of the way quickly. Don’t block my way and waste my time. You can’t bear the consequences of stopping me. Furthermore, I don’t know what you are talking about! There’s nothing you need here.”
