

Read I Am A Quadrillionaire Chapter 2178

I am a quadrillionaire chapter 2178-It would almost always be sold at a premium in Sole these days.

“Sorry, Mr. Rivers, I’ve already sold the Beast Crystal. Let’s talk about the price of the corpse!”

There was a look of disappointment in Thor’s eyes.

However, he recovered very quickly and started negotiating the price of the Silver Flood Dragon with Beanie.

When Beanie bought the Silver Flood Dragon in Crow City, she spent 19.8 billion L Dollars.

However, she bought it at a serious premium to gamble on whether there was a Beast Crystal in the corpse. In addition, the Chez family had tried to caused trouble, which ended up driving the price up.

In reality, the Silver Flood Dragon was not worth so much money at all.

Fortunately, she made the right choice.

The Beast Crystal alone was sold at 100 billion L Dollars.

Regardless of how much the corpse ended up selling for, Beanie had already made a lot of money this time around.

In the end, the two negotiated a price of 15 billion L Dollars and the deal was finalized.

Beanie sold the corpse of the Silver Flood Dragon and the Crystal for a total of 115 billion L Dollars.

Compared to the 19.8 billion she spent purchasing them, it had increased by almost six times, giving her more than 90 billion in profit.

This kind of money-making speed was beyond the capabilities of Thor and other businessmen.

After the two parties transferred the money and delivered the goods, the transaction was completed.

After the matter with Pebbles, David was not in the mood to continue shopping anymore, so he and Beanie left Treasure Pavilion and decided to only shop next time.

His strength in the real world had reached partial Primordial Deity Rank, so he did not need to be too anxious as he had plenty of time to waste.

After returning to the inn, David and Beanie separated and entered their own rooms.

Along the way, Pebbles hung on to David and refused to let go.

In the room, David sat down, took out the Beast Crystal, and waved it in front of Pebbles.

It immediately attracted Pebbles' attention.

The little girl stared at the Beast Crystal in David's hand with bright eyes. She knew it was very useful to her. When she was about to reach out to take it, her little hands suddenly stopped halfway.

She remembered what David had said.

She needed the owner's consent before taking something, otherwise, she would be a bad girl.

"Do you want it?" David asked.

"Yes!" The little girl nodded repeatedly.

'Then why don't you take it?'

'You said that I need the consent of the owner before I take something. If you don't let me have it, then I can't take it,' the little girl said, looking as if she was in a dilemma.

David was amused at how she looked wanting something but could not have it. However, at the same time, he felt distressed.

'You're such a good girl, Pebbles. I took it out for you, so I give you my consent. You can take it.' David touched the little girl's head with his other hand and said dotingly.

"Really?"

"Certainly!"

'Thank you!'

After Pebbles finished speaking, she continued to reach out. Then, she took the Beast Crystal from David's hand, popped it in her mouth, and ate it.

The whole process was so quick that David was stunned.

'Can a Beast Crystal be eaten straight?

'Didn't they say that there are genes of the beasts in it and eating it is harmful to the human body, which is why it needs to be refined and made into an elixir?

'Will it hurt Pebbles' body if she ate it just like that?
