

Read I Am A Quadrillionaire Chapter 2183

I am a quadrillionaire chapter 2183-The Iridescent Sect in Star Kingdom.

After David convinced Pebbles, he changed rooms, exited The Spirit Cage, and returned to the real world.

David felt glad looking at the 4520 lavish points in the system.

First, he would spend 2000 lavish points to upgrade his Body and Mind from Pre-Deity level 10 to Primordial level 1.

Then, he would spend 900 points each to raise his Body and Mind to Primordial level 10.

Under the double limit, his combat power would also reach partial Ancestral Deity Rank.

One had to admit, with the help of the system, David's strength improved really fast.

How long ago did he reach Divine Realm?

Now, he was almost at the last rank of Divine Realm, Ancestral Deity Rank.

In the entire universe, there was no lifeform or any race that could compare to him.

The most important thing was that this improvement had no side effects other than a lack of combat experience.

This was the most awesome aspect.

There were also many ways in the world to forcibly increase strength, but they all required the user to pay a price while the extent of improvement was also limited.

However, with David, not only could he improve fast, there was no upper limit to his growth and he would have no side effects.

The others could only envy him.

He had 4520 lavish points. After he used 3800, he would have 720 left.

David knew in his heart.

His strength might stay at this stage for a while.

If he wanted to upgrade again in the future, he would go from partial Ancestral Deity Rank to the real Ancestral Deity Rank. To do that, he would need 10 thousand lavish points.

Based on the current rate of progress, David still needed a little time to accumulate 10 thousand lavish points.

However, it would be a little difficult to break past Divine Realm after that as it would need hundreds of thousands, millions, or even tens of millions of lavish points.

Of course, David was not worried either.

He was in Star Kingdom, and as long as he did not go to Leila, he figured that it would be enough to remain a Divine Realm Ancestral Deity.

The only thing to watch out for was the Feather family.

David did not believe that the Feather family would immediately send someone stronger than a Deity to a small level 7 civilization.

Moreover, it was hard to say whether the Feather family had someone beyond Divine Realm!

Besides, he still had three hundred years.

After three hundred years, he might have already surpassed Divine Realm.

Judging from the current situation, all he needed to do was to develop well in The Spirit Cage, try to spend more money, and accumulate more lavish points. He did not have to worry about the rest.

His Cloning had reached level 4 and he could summon 9 clones.

He would need 1000 lavish points to upgrade it to level 5.

720 lavish points were obviously not enough, so he would keep that for now.

Other skills did not have much effect on David, so he would not improve them for now.

It did not matter whether he waited until he had accumulated 1000 lavish points to improve his Cloning to increase the number of clones, or waited until he reached 10 thousand points to make his Body break through.

This time he returned to real world, David went out for a walk and met with everyone. While he was at it, he checked to see if there were any accidents in Star Kingdom. He found that nothing was out of the usual, so he left some orders and then entered The Spirit Cage again.

Right now, he needed to focus on The Spirit Cage as that was where he could make his mark.

The next day, when David opened the door, he saw Pebbles sitting on the ground while resting against the door.

David shook his head helplessly.
