

I'm A Quadrillionaire

Chapter 2230

Chapter 2230

They were all members of the Iridescent Sect at the lowest level, so they had no idea what happens in the forbidden area.

Only seniors knew.

After all, the forbidden area was far from the living area of the Iridescent Sect.

After David went into the study, he sat down unceremoniously.

Nova poured him a cup of tea and joked, "Master David, please enjoy."

"Nova, what's the matter with you? Stop calling me Master David. I'm not used to being called that by you. It's okay for others to call me that, but why are you doing that too?" David asked helplessly after taking a sip of his tea.

His words made Nova laugh. At the same time, she relaxed.

It seemed that David was still the same.

He did not change because of his strength.

At least it was still the David she knew.

"Okay, okay, I'll stop joking with you. Let's get down to business! David, why did you come out so quickly? Was living in seclusion for the past few days effective? Has there been a breakthrough in your strength?" Nova asked with concern.

The Feather family would strike around three hundred years and only David could save Star Kingdom at that time.

So Nova was very concerned about David's progress.

Not just her, Sid and the other Sacred Saints were very concerned too.

Occasionally, they would send messages asking about David's situation.

If David did not improve, Star Kingdom would be defenseless and could be wiped out when the Feather family struck three hundred years later.

"Why do you suddenly ask this?" David wondered.

"Of course, I have to ask. David, you didn't forget that the Feather family will come back to Star Kingdom three hundred years later, right? At that time, only you can deal with them, but if you can't improve your strength, we'll die when the Feather family comes. This is related to the life and death of the entire Star Kingdom, so not only me but, Lord Sid and the gang are all concerned too," Nova explained.

'I see!'

David understood.

'No wonder Nova asked about my progress.'

"That's right! Don't worry, Nova, I am confident that after three hundred years, I will give the Feather family a big

surprise when they get here. I'll let them know that although Star Kingdom's civilization level is not as high as theirs, they can't bully us so easily." David assured, patting his chest.

He did not tell Nova the actual situation.

That he had now reached the last rank of Divine Realm - Ancestral Deity Rank.

Whether the Feather family sent someone or whether they came out in full force, David would not necessarily be afraid.

They would only find out the winner after a fight.

And soon, David would go one step further. Top peak Divine Realm, or even beyond.

What was the Feather family then?

Judging by the pace at which David earned lavish points in The Spirit Cage, the Feather family would be nothing more than a group of ants to him three hundred years later.

"Really?" Nova's eyes flashed, looking surprised.

"Of course! I don't mind if others don't believe me, Nova, but don't you believe me? Do you still remember the first time we met? I had just entered Eternal Realm, and in the end, I overcame all obstacles and became a partial Deity, and got rid of Azul. Three hundred years is enough for me to get well- prepared."

"That's true!" Nova nodded affirmatively.

Now, she felt as if she was dreaming.

How did that young boy, beaten by Nek until he had no power to fight back, reach this level in such a short time?

Even the six Sacred Saints who dominated Star Kingdom for many years were ruthlessly trampled by David.

Unbelievable.

Perhaps the person in front of her was sent by heaven to save Star Kingdom.

Without David, no one in Star Kingdom could be Azul's opponent when he absorbed enough sacrifices and recovered.
