I am a quadrillionaire chapter 2244-Even in a first-tier city, it was not easy to spend tens of trillions of L Dollars.

‘Should I leave Sole to go to Wier?’

‘Or should I stay here and wait until I have accumulated 18 thousand lavish points, and then leave after upgrading?’

David was lost in thought.

Due to his ignorance of first-tier cities, he was afraid that his current strength was not enough. He was worried that he would not be able to cope with the powerhouses he met and he would be passive.

However, if he continued to stay, the growth rate of his lavish points would be very slow.

Pebbles’ rations were about to run out. Moreover, the little girl was going through puberty so David had to feed her.

After thinking about it, David decided to leave first.

However, he found a middle ground.

Before leaving, he would go back to the real world and spend 9000 lavish points to raise his Mind to Ancestral level 10.

His strength in The Spirit Cage was determined by his mind power in the real world.

As long as his mind power was raised, then his strength in The Spirit Cage would also improve accordingly.

As for his Body, it would be fine if he did not upgrade it for the time being.

As a beginner Ancestral Deity, David could already do whatever he wanted in Star Kingdom.

Even a Pre-Deity could do that, let alone an Ancestral Deity.

After thinking it over, David stopped tormenting himself over this.

He was not the kind of guy who could not make up his mind.

Once he made a decision, he would implement it according to this plan.

In case anything happened halfway, he would only think about it when the time came.

In fact, if David wanted lavish points, with his current status in Sole, he could directly order the major forces in Sole and most of them would obediently deliver the treasures in their hands to him.

Once he spent the money and the transaction was completed, he would naturally be able to obtain the lavish points.

However, he did not want to do that.

He refused to do things that were too high-profile as this was not who he was.

He would only do this if he had to but he was not at that stage yet.

Even if he collected 18 thousand lavish points and raised his Body to Ancestral level 10, under the effect of double limits, it would only allow David's real-world strength to break through to Divine Realm and reach a new height.

It would not have any impact on his strength in The Spirit Cage, but it would be enough for the real world.

So David was not in too much of a hurry.

It was more than enough to upgrade his Mind first. He did not need to worry about his Body yet.

'When Pebbles wakes up, I'll go back to the real world and have another breakthrough.'

'Then, we'll leave Sole and go to the first-tier city Wier.'

Two days passed quickly.

The little girl had not woken up.

Sure enough, she ate a lot and slept a long time.

Then, Thor arrived.

Just as David expected, he brought fewer treasures of heaven and earth than last time.

Judging from the little girl's appetite, the treasure in David's hand was only enough for another five or six meals for her.

"Mr. Rivers, the treasures you bring me are getting less and less," David said calmly.

Thor replied with a forced smile, "Master David, I've done my best."

"Have you bought all of Sole's treasures of heaven and earth? That's impossible, right? You didn't buy a lot."

"No, but if they aren't willing to sell, I can't do anything about it either," Thor said, looking helpless.

"Just increase the price! Didn't I tell you that money is no problem? I refuse to believe they won't want to make money."

"Master David, you have no idea. They didn't come here to make money but to increase their soul power. The major forces will keep their treasures for themselves and they won't sell them. It won't work even if we have money! I only bought these from the merchants," Thor explained.

"I see. I was wondering why. Sole is a second-tier city and I didn't buy a lot of treasures, so how can they be sold out? If that's the case, forget it. Just do your best."

"Thank you for understanding, Master David. I'm about to go to the cities around Sole in a few days to see if I can get some treasures for you."
