I am a quadrillionaire chapter 2270-There was a loud bang.

Then came the shockwaves of the collision.

Beanie and Princess Evie were caught off guard and flew off the carriage.

When the two stood again, they looked at each other, and they could see the deep worry in each other's eyes.

'It's over, it's over.'

With their strength, they could not even think about getting close to this level of battle.

They were so far away and yet, just the aftermath of the battle was unbearable to them.

There was only one result if they approached forcibly, and that was to be killed by the shockwave.

Thor and the Nacht family guards also showed fear in their eyes.

'It's so strong!'

They had never encountered such a powerful person in their life.

After a severe collision, there was silence in the sky.

David and Queen Isa stood several kilometers apart in the air.

At this time, they finally saw the appearance of their opponents clearly.

To David's surprise, the other party turned out to be a woman with a veil.

Queen Isa did not expect that the one who could catch her blow without injury was actually a young boy.

His soul power was ridiculously strong at such a young age.

It seemed that he was indeed a guy with a sky-high background.

No wonder he dared capture Evie.

David's image further confirmed Queen Isa's guess.

How would ordinary people dare to catch the Elven Princess?

When she thought of this, the killing intent in Queen Isa's eyes grew stronger.

Feeling the killing intent, David frowned.

'Is this woman sick in the head?

'We have no grievances, so why is she trying to kill me as soon as we meet?

'No, she had already shown intent before we met.'

"Ma'am, we don't seem to have met each other before and we don't have any enmity! So what's the meaning of this?" David asked in a deep voice.

"Can't you tell? I want to kill you, of course!" Queen Isa replied directly.

"Why?"

"Do I need a reason to deal with a b*st*rd like you?" Queen Isa sneered.

David was amused by Queen Isa's words.

He had been at The Spirit Cage for less than a year.

He figured he was quite law-abiding and he had never done anything harmful or heinous.

He would only attack when the enemy forced him and as a last resort.

How did he become a b*st*rd?

Could this person be the backer behind the Macee family?

That did not seem right either.

The Macee family was just a family from a second-tier city.

If they had such a strong backing, they would be invincible in Sole.

How would the other families survive?

For a moment, David could not figure out what the problem was.

If he could not understand, then he would just stop thinking about it.

“Ma’am, I don’t know what you’re talking about. I, David Lidell, won’t call myself a good person, but I’ve never done anything harmful. If you continue to be so unreasonable, don’t blame me for being rude.” David also lost his temper.

He had backed down several times, but the other party kept being aggressive.

No matter how good his character was, there were still times when he would get irritated.

“Really? This is exactly what I want! Let me see what you are capable of, you punk. I’ll let you know that just because you have a little strength and background, it doesn’t mean you can do whatever you want. Some people are beyond your power.”

After Queen Isa finished speaking, she rushed toward David.

In fact, she knew it in her heart.

If this boy named David in front of her could block her attack, his background must be heaven-defying.

Even if Isa won this battle, she could not kill David.

She could only injure David and bring him to see his elders to see how they would deal with the problem.

She would not let him destroy the princess that the Elves spent so long cultivating.
