

Read I Am A Quadrillionaire Chapter 2315

I am a quadrillionaire chapter 2315-Seeing that his attack could not break through David's defense, Blue knew that the treasure in David's hands was amazing!

It was definitely something good.

He must find a way to get it.

It would also be of great help to him.

Maybe this treasure could help him leapfrog the battle.

During a battle, when the strength of the two sides was equal, they had to rely on other means.

Treasures were one of them. Moreover, a very important part.

If one had an offensive treasure at hand, it could increase the combat effectiveness of the user a lot.

For example, the Evil-Splitting Sword in David's hand could cut everything in the world. So, using it would make him even more powerful.

In addition to offensive treasures, defensive treasures were also good as they could resist the enemy's attack and save lives at critical moments.

What David held was obviously a defensive treasure that could withstand a Deity's attack.

Both these treasures were amazing.

Treasures with other functions were inferior to the offense and defense treasures.

Blue never thought that David had resisted his attack by relying on his strength alone.

After all, if David could do that, he must be someone above Pre-Deity Rank.

If that was the case how could Star Kingdom be a mere level 7 civilization? This would be unreasonable.

Plus, after being forced to this point, David still did not show. Obviously, it was because he was afraid of Blue.

After confirming that the treasure in David's hand was very precious, Blue changed his strategy. He wanted to threaten David to hand over the treasure in his hand just like he threatened Sid, so he shouted down, "David, do you think I can't do anything to you if you hide in your shell? You are so naive. Let me tell you, a Deity's methods are beyond your imagination. If you are smart, get out and hand over everything you have and follow me to the Feather family to accept your trial. That way, you will have a chance to survive. If you fight back stubbornly, you will only die. Not only that, but if you continue to resist, I will trample the entire Star Kingdom and turn this place into ruins today. All living beings will die because of you, David!"

Blue's words made all the onlookers understand immediately.

It turned out that he did not want to stop.

It seemed that David had blocked the attack using some unknown methods, stopping that shocking giant finger from falling.

At the same time, they felt chills from Blue's words.

If David could not fight back, this guy would attack Star Kingdom.

He would destroy Star Kingdom and let all living beings die because of David.

This was a blatant threat.

Sid glared at Blue, wishing to take him down with himself.

However, he knew that he was too weak. Even if he tried all means, he could not even pose a slight threat to Blue.

So, he could only sigh helplessly in his heart.

In the secret room, David lifted Nova and heard what Blue said from the sky.

A sneer curled up at the corner of his mouth.

'He's just a Pre-Deity. How dare he show off his power in front of me and even want to judge me? He even threatened to destroy Star Kingdom!

'How hilarious!

'Who gave him the courage?*

If David went to the Feather family, even the grandmaster and head of the Feather family would be so scared that they would fall to the ground. They would even get on their knees to beg for David to come out.

How could the Feather family judge a partial Overlord?

How many partial Overlords did Leila, a level 9 civilization, have in total?

Without any exaggeration, David's current strength was already at Leila's peak.

Only the five Leila rulers could suppress David, not even the other partial Overlords could do that.

After all, David's Cloning was no joke.
