I am a quadrillionaire chapter 2327-An Overlord's speed can surpass the limitations of time and space.

Not long after, Leila's three Overlords, Sylvio, Valentin, and Drogo, arrived.

When he noticed Lufian staring at the dead star not far ahead, Valentin asked, "Lufian, you said you found Flora's whereabouts, is she on this planet?"

"Valentin, can't you feel Flora's aura?"

Upon hearing what Lufian said, Valentin focused on the planet ahead.

Sure enough, after a while, he felt Flora's aura.

As for Sylvio, he had already sensed it when he first arrived.

The five Leila rulers had known each other for a long time.

It was so long that it was difficult to use the unit of the year to calculate their friendship.

It had to be calculated using epochs.

By preliminary estimation, they had known each other for at least tens of thousands of epochs.

An epoch was equivalent to 129600 years.

So, how many years were tens of thousands of epochs?

It had been so long that they knew each other's auras very well.

"Lufian, since Flora is inside, why don't you go in and check?" Sylvio asked.

"I'm afraid of disturbing Flora. Flora put a seal on this planet. If I want to go in, I must destroy the seal, but I don't know what's going on inside so I dare not trespass for fear of affecting her. That's why I waited for you all to come and see if there is any way to get in without breaking the seal," Lufian explained.

Sylvio frowned upon hearing that.

Then, he took one step forward and approached the outside of the planet.

The other three also appeared on his side at the same time.

When he wanted to enter the planet, a green seal appeared to block his way.

With Sylvio's strength, it was actually very easy to get in and the seal could not stop him.

However, as Lufian said, he still did not know what was going on inside. He did not know whether breaking the seal would affect Flora, so Sylvio did not dare to mess around.

"How is it? Sylvio, is there a way to get in without breaking the seal?" Lufian asked anxiously.

Knowing that Flora was inside, but that he was unable to enter, Lufian was very anxious.

"I don't know yet, but I'll take a look first," Sylvio replied.

Then, he began to study the green seal.

The seal was not very strong.

At least for an Overlord, it could still be broken with a little effort.

Yet, it was hard to determine whether it would affect Flora after it was broken.

Everyone knew that Flora's injury was serious and needed a lot of time to recuperate.

Once the seal was broken, it was likely to cause her serious consequences.

After studying it for a long time, Sylvio said, "If I'm not wrong, this seal should be set by the Emerald Lotus Sword to protect its owner and it is also Flora's last defense. She will never use it unless it is her last resort. From this, it can be seen that this time, Flora was seriously injured and it may even be life-threatening."

"What? Flora's life is in danger?" Lufian was shocked when he heard this.

He thought that Flora set this seal before she recuperated and she was still fine.

However, Sylvio said that it was set by Flora's Emerald Lotus Sword to protect its owner.

If the Emerald Lotus Sword was protecting its owner, it was enough to show that Flora's state was worrying.

Everyone believed what Sylvio said.
