I am a quadrillionaire chapter 2368-Fortunately, David reacted quickly.

His mind power quickly isolated the blood essence and the power finally disappeared.

The Iridescent Continent regained its calm and Celeste could move again, but her voice was still trembling.

“D-David, w-what is this?”

“Stop talking, Celeste, keep watching!” David replied nervously.

Celeste fixed her eyes on the blood essence floating in the air.

All this time, the blood essence was constantly changing shape.

Under Celeste’s shocked eyes, it turned into another David.

“W-What...” Celeste was stunned speechless.

David did not speak but looked carefully at the clone.

This time, without any interference from him, the clone appeared automatically. The first step was successful.

Yet, this was not enough.

What came next was what mattered.

Only clones that could defend against enemies and fight were useful, otherwise, they were just corpses that would disappear when the time was up.

It depended on whether he could act independently.

The follower who had his eyes closed suddenly opened them, looked at David and Celeste, and said in a mechanical and emotionless voice, “Celeste, Dave, what can I do for you?”

“It’s done!” David exclaimed excitedly.

After breaking away from him, his clone could still move on its own.

“Celeste, ask him to get me that tree opposite us,” David said excitedly.

Faced with such a scene, Celeste was a little confused.

However, she obeyed David and said to the clone, “David, go and bring that tree over here.”

She pointed to a big tree hundreds of meters away that had a diameter of at least two or three meters

“Yes, hold on, Celeste!”

The clone waved his hand.

Boom!

The big tree lifted out of the ground and flew over.

“Ask him to put it back!” David continued.

“Put it back!” Celeste echoed.

“Yes, Celeste!”

The clone waved his hand casually and the tree returned to its original position.

“Haha! It worked, I’ve finally succeeded.” David laughed.

Although the clone had some disadvantages, it could already obey Celeste’s words, showing that the avatar could indeed protect everyone’s safety.

If he went back and improved it, the clone would definitely become more and more perfect.

David withdrew the soul clone as well as the drop of blood essence that had been consumed.

The clone immediately dissipated.

Celeste stood there stupidly the whole time, doing whatever David told her.

She could not think.

“Celeste, what’s wrong? Are you shocked? This is what I studied when I lived in seclusion the past few days,” David said triumphantly.

“David, what the hell is going on?” Celeste asked as she slowly came back to her senses.

“Celeste, don’t panic, please listen to me carefully...

‘The guy who was exactly like me just now is my clone. My clone has the same strength as me. Before this, I had to control it to move and fight. Now I have successfully

created one that can fight on its own even when I am not around.

“In the future, I will assign two clones to each of you. When you are in danger, you can take them and unlock the seal. After that, you can summon the clones to fight for you. They can help you solve the crisis and protect you. However, the clones also have shortcomings, that is, there is a time limit. A drop of blood essence can only last for one hour, and it will disappear when the time is up...”

After some explanation from David, Celeste understood David’s good intentions.

“Gosh, David, why are you doing this? We don’t need it,” Celeste sighed, staring straight at David.

“Celeste, you are all very important to me. I don’t really have any ambitions. I just want to be able to protect the people around me from harm. All my efforts are based on this.

Status and fame are not important to me at all,” David said seriously.
