

Read I Am A Quadrillionaire Chapter 2382

I am a quadrillionaire chapter 2382-After hearing David's introduction, Nova believed him without any doubt.

On the other hand, Sid must confirm the effect of the clone.

Seeing that David did not refuse and there was displeasure on his face, Sid felt relieved.

It took a lot of courage for him to question someone who could instantly kill a Deity.

Apart from Sid, no one else in the entire Star Kingdom would dare do this.

David then began to teach Sid how to unlock the box seal.

With his Sacred Saint strength and talent, he learned it in just a few minutes.

With the wooden box in hand, Sid looked at David.

"Lord Sid, don't you want to see the effect? Just untie it! The clone will appear automatically," David said.

"Master David, should we change places?" Sid asked cautiously.

"That's fine."

After David finished speaking, he took Sid and stepped out into the void at the edge of Star Kingdom. The conditions here were harsh and there were dead stars everywhere.

"It'll be fine here. This place is far away from the center and there are no living planets around."

Sid looked at the pitch-black void with countless dead stars floating in it and was shocked in his heart.

He had already guessed the location of this place.

It was precisely because he knew where he was that he was shocked.

In just one breath, David had taken him across the radius of the Star Kingdom.

It was so fast that it was unimaginable and incomprehensible.

'Is this the strength of a Deity?

'Just this move alone is far from what a Saint can compare.

'No wonder it took Blue less than a year to come to Star Kingdom from a level 9 civilization.'

Sid had no idea that David had now surpassed Divine Realm and reached Overlord Realm.

"Master David, I want to break the seal!" Sid came back to his senses and said while looking at David.

"Go on! This is not something major. I'll give you another clone after you use this one."

David's indifferent attitude reassured Sid a lot.

At least the other party was not angry about it.

"No need, Master David. If it's as powerful as you said, I only need one to deal with the Feather family."

Sid stopped hesitating and used the method David taught to unseal the box in his hand.

Soon, the wooden box was opened and a drop of blood essence flew out from it.

The moment the blood essence appeared, countless space cracks appeared in the surrounding void because of the unbearable pressure.

The dead stars that were closer to them were also pushed far away by an invisible force.

Not to mention Sid himself.

His body seemed to be frozen and he was unable to move at all.

Before Side even had time to think, the blood essence changed continuously after it flew out. Within two or three seconds, it turned into another David.

The pressure only disappeared when the clone appeared.

“M-Master David!” Sid looked at David.

“Lord Sid, this is my clone and you’re the one who undid the seal. As long as I don’t interfere, he will only obey your command. You can do whatever you want him to do, but the clone can only exist for one hour. It will disappear when the time is up so you must ask him to settle everything within the time limit,” David explained.
