I am a quadrillionaire chapter 2391-“Have I changed? Maybe! I believe that anyone who encounters such a sudden unforeseen event and experiences a life-and-death crisis to be reborn again will change. I am naturally no exception,” Elora said lightly.

She did not deny her changes.

At this time, the more she denied, the more suspicious Lufian would be.

So, she might as well just admit it and attribute the reason to this accident.

“I think so too! Elora, don’t worry, I won’t spare the Robotias and the Soul Devourers so easily. Since they dared to join forces to seriously injure you and almost kill you, I will destroy these two races and make them completely disappear from the universe,” Lufian said solemnly.

“Lufian, as I said, I will avenge myself and don’t need your help. If you still want to do that, you might as well think about how to solve Leila’s crisis that is right in front of us. If you can’t even solve this crisis, why are you talking about revenge?”

Elora did not give in to Lufian even after he had shown her affection countless times.

The reason was that she did not want to owe him too much.

In the past, Elora had thought about accepting Lufian and becoming an Overlord couple with him.

After all, they had been together for thousands of epochs and Lufian had always taken good care of her.

It would be a lie to say that she was not touched.

However, she was just touched, but not moved.

There was an essential difference between the two.

Now, after her experience in The Spirit Cage, a figure appeared in Elora's heart. She no longer wanted to have any relationship with Lufian, so it would be best for her to draw some boundaries.

"Okay, okay! Elora, I'll listen to you. We'll solve the immediate crisis first and then talk about revenge. Anyway, the Robotias and the Soul Devourers can't escape," Lufian replied with a smile on his face.

He was not angry at all with Elora's attitude.

Elora's attitude towards him was even worse before, but didn't he persist?

Right now, helping Elora restore her body was the most important thing, and then, they would discuss how to deal with the Robotias and the Soul Devourers teaming up to invade Leila.

Looking at Lufian's nonchalant expression, Elora felt helpless.

Now she did not dare to show her cards directly, otherwise with Lufian's character, he would pursue it to the end.

Once he found out about David, David would surely die.

Therefore, she could only talk about this later. She would give Lufian the cold shoulder for the time being. Maybe it will get better if she kept that up for a long time.

"Lufian, don't underestimate the Robotias and the Soul Devourers. Since they dared to attack me together, they must have already made preparations. We have to talk about this when Sylvio arrives."

"Don't worry! Elora, I don't mean to belittle them. Leila will survive this crisis under the leadership of Sylvio. Even if you don't believe me, you should believe in Sylvio, right?" Lufian still had an indifferent expression.

He was dying to tell Elora that he was about to break through to Heavenly Overlord Rank soon.

At that point, would the Robotias and the Soul Devourers still be threats to them?

Even if he went directly to their lair, they would not be able to do anything to him.

The Robotias and the Soul Devourers did not have Heavenly Overlords.

After stepping into Heavenly Overlord Rank, he could easily wipe out those two races.

However, after thinking about it, he held back. It was not the time yet.
