I am a quadrillionaire chapter 2393-The five Leila rulers were together again.

Elora recounted her battle with the Robotias and the Soul Devourers in detail.

She only briefly mentioned her experience in The Spirit Cage.

After confirming that the Robotias and the Soul Devourers were teaming up to invade Leila, Sylvio began to assign tasks.

“Lufian, Valentin, and Drogo, I need you to gather Leila’s partial Overlords. Hold a meeting with them and tell them that Leila is at the point of life and death, so everyone must unite to tide over the crisis together. All partial Overlords, no matter what they are doing, must all be present. Anyone who is afraid of dying and refuses to come will be driven out of Leila and they will never be allowed to set foot here.”

“Yes, Sylvio!” The three Overlords, Lufian, Valentin, and Drogo, replied at the same time.

Then Lufian asked again, “Sylvio, what about Elora?”

He still cared most about Elora, his self-appointed partner.

“Lufian, don’t worry, I will take Elora to arrange the formations needed to restore her body. While we’re at it, I will also tell her what she needs to take note of. Restoring an Overlord’s body is not a joke, and there can be no mistakes. Come to my place a month later to restore Elora’s body,” Sylvio ordered.

As the strongest and longest-lived Overlord, no one would question or oppose his words.

Of course, Sylvio’s fairness was also the reason that everyone respected and trusted him.

“I see, thank you, Sylvio,” Lufian said seriously.

“Thank you, Sylvio!” Elora said as well.

“Okay, time is running out, let’s act now! Since the Robotias and the Soul Devourers dare to attack Elora, it means that they are already acting secretly. We must hurry.”

Lufian, Valentin, and Drogo left quickly after they received their mission from Sylvio.

Before leaving, Lufian took a deep look at Elora.

Everyone was not surprised by this.

The entanglement between these two had been scarily long.

One had clearly rejected the other since the beginning, but he never gave up.

So, they had been entangled for hundreds of thousands of epochs.

Then, just as Elora seemed no longer as stubborn as before and appeared on the verge of accepting Lufian, this battle happened and caused her to lose her body.

Moreover, Leila would also face a great crisis.

After the three Overlords left, Sylvio and Elora’s soul remained.

At this moment, Elora’s heart was heavy.

She was not worried about the many twists and turns of restoring her body, nor was she worried about Leila being breached. Instead, she was worried about how she would deal with the relationship with Lufian.

She could not accept Lufian anymore, but she dared not say so.

Otherwise, Lufian would definitely change into a lunatic.

At that time, no one in the entire Star Kingdom could control him except Sylvio.

David was also very likely to be exposed.

Once he was exposed, he would die.

‘What should I do?’

Elora felt helpless.

After much deliberation, she still could not find a solution.

The only way was to drag this out.

She would drag this out for another hundred epochs.

However, if she did not deal with her relationship with Lufian, she would not dare go back to see David.

Would he still remember her after such a long time?

When Elora was in a dilemma, Sylvio suddenly said, "Elora, I still have something to tell you."

"What is it, Sylvio?" Elora came back to her senses.

"While you're seriously injured, I spent a lot of my blood and sweat to read your fortune. Do you want to know the result?"

Sylvio's words piqued Elora's interest.

She knew Sylvio was very talented in reading the inscrutable twist of fate.
