

Read I Am A Quadrillionaire Chapter 2398

I am a quadrillionaire chapter 2398-So, he had to pay attention to this.

Coincidentally, he could use this opportunity to see how much Lufian was hiding and make preparations for what was coming next.

To be honest, Sylvio did not like Lufian that much.

Even though he was talented, he was very scheming and shrewd.

In addition to his other personality, he was like a time bomb that was hiding in Leila. Perhaps one day, he would explode.

Sylvio was worried that Lufian would grow to a level where no one could defeat him.

If that happened, it would be an unprecedented disaster for Leila, even more terrifying than the invasion of the Robotias and the Soul Devourers.

Sylvio thought of a lot of ways to remove Lufian's other personality for him.

Unfortunately, he failed every time.

The only way was to keep Lufian from getting too emotional and angry so that he should be in control of his emotions.

However, once he found out what was in Elora's mind and of David's existence, it would not be a matter of getting emotional or angry; instead, he would go crazy.

"Elora, let's go! First, I'll help you restore your body and solve the joint invasion of the Robotias and the Soul Devourers. After that, we will go back and deal with your matter with Lufian and David," Sylvio said.

"Okay, thank you, Sylvio!" Elora bowed and thanked him.

Sylvio waved his hand.

Among the three things he had to do, except for helping Elora restore her body, which was the easier one, the other two were pretty hard.

Even Sylvio found them quite tricky.

Elora followed Sylvio to his place to arrange the formation needed to restore her Overlord Realm body.

At this point, Leila was in chaos.

Almost all top forces had received messages from The Spirit Cage.

Someone in The Spirit Cage was claiming to be Empress Elora, one of the five Leila rulers, and was asking them for treasures.

When the heads of the major forces heard the news, their first reaction was that it was fake and someone must be impersonating Empress Elora.

They even scolded the person in charge who was sent to The Spirit Cage.

However, after looking at it closely, something was not right.

If someone was pretending to be Empress Elora, they would be satisfied after deceiving one or two families. Then, because of their prestige, the deceived forces might not speak out.

However, who would dare to be so rampant as to deceive all the forces in the eight main cities of The Spirit Cage?

Wouldn't that be courting death?

They would surely not be able to hide this.

Then, a question arose in everyone's mind.

'Could it really be Empress Elora?'

Since Empress Elora, one of the five Leila rulers, was involved, no one dared to make a decision. Therefore, they hurriedly reported this to the grandmaster of their families so that they could decide.

Just when the grandmasters of the major forces were discussing whether they should team up to ask Empress Elora, they received an order in the name of the Five Emperors-the Five Ruler Order.

All the partial Overlords had to come out and gather at the center of Leila urgently.

On the continent where the five Overlord statues stood.

That was Leila's holy ground.

The partial Overlords who received the Five Ruler Order did not dare delay. So, they immediately set off for the holy ground.

At this time, Lufian, Valentin, and Drogo were already waiting for them on the holy ground.

Partial Overlords were still much worse than real Overlords.

The Overlords could ignore the space, position, and distance, but they could not. So, they could only travel in the high-dimensional space obediently.

Soon, half a month passed.

Almost all of Leila's partial Overlords had arrived, and only a few of the more distant ones were still on the way.

Lufian, Valentin, and Drogo sat on their tens of thousands of feet tall statues with their eyes closed.

The grandmasters of the major forces who arrived all sat cross-legged and waited quietly.

No one dared make a sound.
