I am a quadrillionaire chapter 2411-“Don’t worry, Master. We’ll wait for you out here,” Beanie and Thor said at the same time.

At the same time, they were breathless with anxiety.

They thought, ‘My darling Master David, please stop antagonizing Captain Longer. You might not be scared, but we are!’

Ordinary people could not endure the might of Captain Longer, the captain of the Amber City law enforcement team.

If David was not here to support them, a look from Arian would have scared Beanie and the team to the ground.

Viktor was shaking as he was scared stupid.

This was the first time he heard someone who dared talk like that to Captain Longer.

With Arian’s position in Amber City, even though the mayor was his superior, he still had to show some respect to Arian.

The Amber City law enforcement team was not a force to be looked down upon.

There were 12 members in a small law enforcement team, and with the team captain, there would be 13 members.

Then, the entire law enforcement team would consist of 108 small teams that would be managed by a captain.

The Amber City law enforcement team was made up of 108 small teams and Arian was the only captain.

He managed elite teams of more than a hundred thousand members and oversaw the order of the entire Amber City. Therefore, one could see how powerful Arian was.

Aside from the Birch, Campbell, and Vidales families, those in charge of other forces would have to be respectful whenever they saw him.

That was why Arian dared to say that there were only a handful of people in Amber City who could control him.

He had power and status.

“Kid, not bad. I will remember you. In the future, I hope you won’t regret what you said today,” Arian said through gritted teeth as he looked at David with eagle-like eyes.

David curled his lips and showed Arian a cold grin.

“Stop scaring me, I’m very timid. But I also have to warn you. Those people back there are with me, so if you dare to touch a single hair on them, you might not be able to keep your damned life.”

After he said that, David walked into the reception hall without turning his head. He wanted to see who was the mayor of Amber City.

Arian was furious but he could not say anything.

Since the mayor had not said anything, he genuinely did not dare to do anything to David and his people.

Thus, he could only suppress his anger inside him.

When he turned his head to look at Viktor, Viktor was so scared he fell to his knees.

“C-Captain Longer, please don’t be mad. Please don’t be mad!”

Viktor was extremely scared.

He was scared that Captain Longer would blame this on him. If that were so, shouldn’t he be aggrieved?

‘I’m so unlucky.’ Viktor felt depressed.

‘Why is it my turn to maintain order at Gate 32 today?’

‘Wouldn’t it be great if it’s a day before or after?’

‘Sometimes when you are unlucky, misfortune can happen, however careful you are

'If I asked David properly, wasn't so decisive as to listen to those guard dogs, and sent David into the city safely, none of this would have happened and I wouldn't have ended up in this situation.'

Viktor was so remorseful. However, he could not turn back time.

Arian ignored Viktor and turned his eyes on Beanie and the team.

Beanie and Thor did not dare to look at Arian, so they purposely tilted their heads to one side. In reality, they were extremely anxious.

David walked into the reception hall.

The room was huge and the decorations were luxurious. It was such a dazzling sight.

As the face of Amber City, the mayor's residence naturally could not be too ugly.

The moment he entered the door, David saw an old man sitting on top.

He was sure that the man was Amber City's mayor.

To be honest, David was a little disappointed.

'He's a mayor but he's not as powerful as I thought.

'I can destroy him even if I suppress 90% of my power.

'He's too inferior compared to that mysterious person I met.

'They're not on the same level at all.'

Back then, David thought that the mysterious person was from Amber City.
