I am a quadrillionaire chapter 2414-He had achieved what he wanted to do here.

He understood the general situation of Amber City. It was just so-so.

If Salem was telling the truth, David could easily destroy Amber City right now.

If all of the main cities were like this, there was not a place in Amber City that could stop him.

Yet, the mysterious person had become a knot in David's heart.

So, he did not dare to be too unbridled.

"It's easy to find a place to settle down. I have a lot of properties. You can take your pick later. I'll give you the one that you pick. It's nothing." Salem offered generously.

"No need! No thanks, Mayor Salem. You can't do that. How can I want your house? I can settle this myself, thank you!" David quickly rejected him.

He was not only buying a house to live in, but he was doing it for the lavish points.

Every house in a main city like Amber City would be expensive. Those were all lavish points.

Since David wanted to stay here long-term, he wanted to buy a few more even.

"It's nothing! It's just a house. To you and me, it's merely a worldly possession."

"Mayor Salem, I can take care of this myself so I won't bother you. Thank you for your kindness." David rejected Salem again.

"Since you insist, I won't force you anymore."

Salem was just saying that casually.

How would a direct descendant that was cultivated in secret lack money?

He might have piles and piles of resources to use.

“Thank you for your kindness, Mayor Salem.”

“David, I won’t send you off then. If you have nothing to do in Amber City, you can come and talk to this old man.”

“No problem. I’ll definitely drop by!” David agreed.

Then, he turned to leave.

Beanie and the others were waiting anxiously outside.

This was the mayor’s residence of Amber City, one of the eight main cities on The Spirit Cage.

A first and second-tier city like Wier and Sole could never compare.

Anyone who could become the mayor of Amber City was surely from the best force in Leila.

Even though Beanie and the others figured David was also from one of them, what if he was not?

What should they do if Master David offended the mayor of Amber City?

While they were feeling tormented, David appeared.

“Master David!”

“Master David!”

Beanie and Thor called out excitedly at the same time.

They observed David and after making sure he looked the same as when he went in, they let out sighs of relief inwardly.

David nodded at the two in response.

As he walked to Arian, Salem said from inside the reception hall.

“Ari, apologize to Master David. He will be staying in Amber City for a while and you’re the captain of the Amber City law enforcement team, so you will be seeing each other quite a lot in the future. Don’t treat him like he’s your enemy.”

Arian was shocked.

After two to three seconds, he came back to his senses.

“Mayor, I...”

Before he could finish, Salem continued, “What? Are you disobeying me now?”

“Yes, Mayor!” Arian took a deep breath and answered.

Then, he looked at David and suppressed the dissatisfaction in his heart to say forcefully, “I’m sorry.”
