I am a quadrillionaire chapter 2415-Arian's apology caused Beanie and the others to widen their eyes. They had looks of disbelief on their faces.

Even though Arian sounded unnatural and he was not doing this willingly because he had no choice, this proved how amazing Master David was.

This was Captain Longer of the Amber City law enforcement team in one of the eight main cities of The Spirit Cage.

Aside from the mayor, he was almost invincible in Amber City.

The mayor was also the one with the most authority in all of Amber City.

If Beanie and the others were doubtful about their master's identity, they were now certain that he had one of the top forces in Leila behind him.

Otherwise, the mayor of Amber City would not be so polite and even asked the captain of the law enforcement team to apologize

Perhaps the force behind Master David knew the force behind the mayor of Amber City. Perhaps they were even pretty close.

If not, he would not get such a treatment.

Beanie and the others were finally relieved.

The higher their master's status, the happier they would be.

"You don't have to apologize to me, but I hope you can manage your people well. Stop making conclusions before knowing the situation. It's not good."

After David said that, he walked out of the mayor's residence without even turning back.

Beanie and the others quickly followed him.

At this moment, Viktor who was on his knees felt as if all of his energy had been drained. Shortly after, he fell to the ground limply.

He felt dizzy.

'Oh no! I'm doomed!

'David's status is so high that it's terrifying.

'Even the mayor is so polite to him. Moreover, Captain Longer was even forced to apologize to him.

'But I wanted to lock him up!

'Aren't I asking for death?'

Now, Viktor was not worrying if he could keep his job as the team captain of the law enforcement team. Instead, he was worried if he could still live.

He was about to die, so who cares if they made him mayor, never mind team captain of law enforcement?

Once he died, he would have nothing.

Viktor could not endure the stress and passed out.

Arian stared at David's back. When David finally disappeared from sight, he turned and walked into the reception hall.

After he walked in, he saw Salem sitting there.

"Mayor, who was that kid? What's his identity?" Arian asked straightforwardly.

He was very unhappy when he was asked to apologize.

After that, he thought about it and realized if the mayor wanted him to apologize, there must be a reason.

David might not be as simple as he seemed.

"I have no idea." Salem shook his head.

Arian could not accept this answer.

'You have no idea and yet you want me to apologize? Are you fooling me?'

"Mayor, you're not joking with me, right?" Arian had a look of disbelief.
