I am a quadrillionaire chapter 2422-Normally, people would only drink together if they were happy.

“Master David!” Beanie called out respectfully.

“Beanie, you’re here. This is Captain Longer, the captain of Amber City’s law enforcement team. You met him

previously at the mayor’s residence,” David introduced.

“Hi, Captain Longer!”

“Ms. Nacht, hello!” Arian also responded politely.

Even if she was pitifully weak, she could still get respect from the strong people as long as she was with David. This was what one got with the right master.

“Beanie, Captain Longer will be selling his 3000 properties in Amber City to me. I’ll let you handle this matter later. You must buy it at the market price, and you can’t let Captain Longer suffer any losses,” David told Beanie.

“Yes, Master David!”

Although Beanie did not know what happened between her master and Arian, since it was Master David’s order, she would just obey. As a servant, there was no need to ask so many questions.

“You can contact Rivers later and ask him to temporarily stop what he is doing and go with you. There are also some treasures at Captain Longer’s place. Rivers has been in the

market for so long, he should be clear about the price,” David added.

“Got it! Don’t worry, Master David, we will definitely get things done properly.”

“Okay, you can leave now. Wait for Captain Longer outside.”

“Yes, Master David!” After Beanie answered, she turned and left.

At this time Arian also bid farewell to David.

His purpose of coming here had been achieved.

Not only did he resolve his grievance with David, but he also became good friends with David. It could be said that he had exceeded what he needed to do.

He would not suffer any loss from trading his real estate and treasures with David.

From now on, he could finally sleep peacefully.

After sending Arian away, David went back to his room.

He would not need to worry about what was going to happen next.

No one was allowed to enter David's room without permission.

Not even Beanie and Thor, his two trusted aides.

Once David went into seclusion, they had to wait for him to come out himself no matter what.

Now, David got ready to go into the real world.

Everything had been settled.

He had transferred his money to the public account. As long as Beanie and Thor spent money from that account, the lavish points would appear in the system.

David would use this method all this while.

If not, it would be troublesome if he needed to be present for every transaction.

In the future, David would focus more on the real world. He only needed to come back to The Spirit Cage occasionally to have a look.

He would hand the rest to Beanie and Thor.

He opened his system.

[Body: Supreme level 1

[Mind: Supreme level 1

[Lavish Points: 5814

[Special skill: Cloning (level 4)]

Every upgrade to his Body and Mind would require 10 thousand lavish points.

If he wanted to upgrade both of them to Supreme level 10, he would need 180 thousand lavish points.

Now, David's lavish points were far from 10 thousand. So, the difference was quite big.

“With three thousand properties and Arian's treasures that have been treasured for a long time, I shouldn't have any problems getting hundreds of thousands of lavish points. However, if I want to accumulate up to a million points to break through to Ancient Overlord rank, it may be difficult in a short time.”

David stared at the system and shook his head.

Immediately after that, he opted out of The Spirit Cage.
