

Read I Am A Quadrillionaire Chapter 2431

I am a quadrillionaire chapter 2431-David's mind power was so powerful.

It had attained Overlord Realm and Supreme Level 1.

He would be second only to the five Leila rulers if he was in level 9 civilization Leila.

As soon as he arrived, he noticed that there was an extra person.

It was Nova, the head of the Iridescent Sect to whom he had earlier bade farewell.

Celeste had successfully convinced Nova to live for herself.

And it was Celeste's last words that made up Nova's mind.

Although David was influenced by Earth's tradition and could not accept another woman apart for Celia at the moment, she would be the happiest woman if David could accept her in the future.

Just look at Celia.

David pampered Celia so much now.

Such a man was worth entrusting her life to.

Those disgusting men in Star Kingdom, with only a bit of power and strength, could never compare to him.

Which of those guys would not be enamored with new people and be bored with the old?

They would throw a woman away and find a new one once they got tired of playing with her.

Very few women could be guaranteed long-term status.

One of the last seven high priestesses of the Iridescent Sect married the head of the Star Mansion and was now his wife. No matter how many women the

head of the Star Mansion brought back, her position as the wife of the head was unshakable.

However, this was too rare.

The woman would need to have the ability and means.

A sweet and innocent woman with no strength like Celia would never stand a chance.

However, since she was with David, Celia could enjoy the treatment that countless women envied.

Even if Nova could not further her relationship with David, she would be happy as long as she could stay by his side.

She never saw David being bad to any of the women with him.

Everyone was willing to follow David.

She would never be interested in another man anyway, so why not respect her heart?

Once she missed out on David, she would be remorseful for a longtime.

After Celeste said that, Nova immediately let go of everything and chose to follow her heart.

The women were chatting in the courtyard.

Dozens of women, all excellent looks, figures, and other aspects, were gathered together. They were all talking over one another, so one could imagine the scene at that moment.

Everyone has always said that three women were enough for a drama.

Now, there were more than ten women here, so there were so many dramas.

David was indifferent toward Nova's arrival and did not think much too of it.

He thought she was here to bid farewell.

No matter what, Nova was the master of Celia and the others, so it was normal for her to come to send them off.

“What are you talking about?” David asked when he was some distance away.

“David, you’re just in time. I need to tell you something.” Celia waved at David.

The rest of them looked over at David.

‘What is it?’ David asked as he walked over.

He approached the women after a few steps.

“David, Master said she wants to go to Earth to take a look with us and also clear her head while she’s at it. She’s never

left Star Kingdom before! You don’t have any objections, right?” Celia grabbed David and asked.

To be honest, among the women, Celia was one of the weakest, and her talent was only average.

However, as David’s girlfriend and the woman David loved the most, she had the highest status in this big family.

Plus, she was gentle and not scheming at all.

So, anyone who got along with Celia, be it a woman or a woman, would be very fond of her.
