I am a quadrillionaire chapter 2439-Astrid's sobs reminded everyone that the most beloved princess of the Milky Way was indeed back.

"Welcome back, my little princess," Nimbus said, beaming.

"It's great that you're back! It's so good that you're back!" Empress Gamore wiped her reddened eyes.

Even though Wilfred did not say anything, one could tell that he was ecstatic from his expression.

At this moment, the four heads and the man in heavy armor behind Nimbus and the others got down on their knees and yelled, "Welcome back, Your Royal Highness Princess Astrid!"

"Welcome back, Your Royal Highness Princess Astrid!" Countless voices resounded and hung in the air even after a long time.

Inside the building on the enormous tortoise, Nova laughed as she listened to the deafening voices outside, "It seems that Astris is pretty popular here."

"You have no idea, Master! Astrid is the only daughter of Emperor Nimbus of the Milky Way! At the same time, she's also the most beloved princess of the empire. Ever since she was born, she was destined to be loved by many," Mia explained from the side.

This was the Milky Way where she and Astrid were born, so naturally, she knew best Astrid's identity and status in the Milky Way Empire.

"Oh? Emperor Nimbus of the Milky Way? That guy who's not even at Eternal Realm? How dare a partial Eternal call himself an emperor? Isn't he worried that people will laugh at him if word gets out?"

"Master, Nimbus didn't call himself that. It's because he's the monarch of the Milky Way Empire and also the strongest in the Milky Way, so that's why they called him that.

However, that's before Master David got here."

“At the end of the day, the Milky Way is just a low civilization and it doesn't have a lot of contact with the outside world, so they are not very well-informed. Who will dare to call themselves Emperor in a higher civilization? Won't they be asking for death?” Celeste said.

“You're right. Not everyone could bear the title Emperor or Empress,” Nova nodded and agreed.

There were records about people after Saint Realm in the very few texts in Star Kingdom.

Even though it was vague, the words 'Emperor' or 'Empress' were taboo, and they were feared by all intelligent creatures.

If David were here, he would surely be amused.

It was because he was already in Overlord Realm.

His Body and Mind were both at Supreme Level 1.

So, he was a genuine Overlord.

Even the weakest Overlord was still an Overlord. Deities could never compare to them.

“Thank you for welcoming me. Thank you!” As Astrid said that, she bowed to everyone around her.

“That's enough, you may all leave. Our family needs to talk,” Nimbus ordered.

‘Yes, Emperor!’ Everyone answered respectfully.

Then, they left the scene in an orderly manner.

Countless attack battleships descended slowly back to Planet Royal to await orders.

They left as quickly as they came.

They were orderly in the entire process and were not chaotic at all.

They were the elite teams in the Milky Way Empire, especially Green Dragon, White Tiger, Red Finch, and Black Tortoise Halls.

They were the most mysterious and powerful force in the Milky Way Empire.

When the irrelevant people left, Nimbus and the others stepped forward and came to the enormous tortoise. Then, they stood in front of Astrid and David.

As she looked at the three family members she was the closest to, Astrid could not hold herself back anymore. In a blink of an eye, she fell into Gamora's arms.

"Mother, I've missed you so much!"

"Me too! It's good that you're back." Gamora patted Astrid's back gently with both of her hands.

"Hello, Mr. Barlowe," David greeted Nimbus.

"David, did you bully my daughter while you're gone? If I found out, don't blame me..."
