I am a quadrillionaire chapter 2459-All disciples in the hall were still in shock, but when Lorraine opened her mouth, everyone was brought back to their senses.

A lot of them had never seen Lorraine before.

After all, Lorraine had left Earth for quite some time.

A lot of the disciples only joined after she left The Krums.

Even though this was the first time they have seen her, this did not stop them from admiring her.

One could even say that the moment she showed her face, she captured all the hearts of the male disciples.

As for the female disciples?

All of them felt ashamed and they were not in the mood to compare themselves with her anymore.

With such a huge difference, the weaker side would not be able to form any feelings of jealousy.

'It'll be great if I can attract everyone's attention like that.'

"Lori!"

"Lori!"

Two surprised voices resonated through the hall.

They were Grant and Fred.

Ever since Lorraine joined the sect, they had been captivated by her and they even dreamed about taking her as theirs.

"Hello, Grant, Fred," Lorraine nodded and replied.

Back when she first joined The Krums, the two men took good care of her.

Even if Grant and Fred had their own intentions, they never forced Lorraine to do anything she did not like.

On the contrary, Lorraine used the fact that they fancied her to do a lot of things that benefited her.

So, Lorraine was pretty courteous to Grant and Fred.

If not, with her strength, she would not need to pay attention to those two.

If one compared strengths, not even Ted was worthy of talking to Lorraine.

Even in level 7 civilization Star Kingdom, Saints could intimidate a lot of people, let alone on Earth which was not even a level 1 civilization.

“Lori is back!” Ted smiled.

If it was someone else from the sect, he would have yelled at them.

Anyone who dared to barge into the hall and interrupt the meeting would be punished severely.

However, since the person who barged in was Lorraine, Ted did not know how to handle this.

Just now, he had been observing Lorraine. In the end, he could not see anything special. She was just like anyone ordinary.

Moreover, Lorraine was initially very talented. When she joined The Krums, she was already an adult but she still relied on her strong talent to progress gradually.

After that, she left Earth for a long time.

Now that she was back, no one knew what she had gone through and to which stage she had grown to. i

Anyway, from all the signs he could see, the calm girl in front of him might have gone through earth-shattering changes.
