

Read I Am A Quadrillionaire Chapter 2468

I am a quadrillionaire chapter 2468-It was because humans' souls were too useful to the Soul Devourers.

Souls not only could increase the Soul Devourers' strength, but also promote their evolution.

This was something that no other living creature could do.

To the Soul Devourers, humans existed for them and humans should become the nutrient for their evolution.

However, the Soul Devourers did not expect how strong and valiant the humans in Leila were. Moreover, they were also not afraid of death.

They would give up their lives just to protect their home.

Stark could still clearly remember the force of the selfdetonated Overlords in Leila during that battle. He still felt fear even thinking about it now.

'You must be dreaming!' Sylvio yelled.

Then, he continued, "If we can defeat you once, we can do it again. Stark, this is Leila's territory and you're not welcome here. Get lost now or else we won't be kind to you."

"Teh tch tch, Sylvio, why are you still so stubborn? Normally, I am indeed scared of the five Leila rulers working together, but now, one of you only has a soul left while the three are just spent force. You're the only one who can fight and you think I'll be scared of you? Also, once you leave, this body restoration will fail," Stark said with a cold smirk.

He knew he had grasped Sylvio and the others' weakness so that was why he dared to come to Leila alone.

Valentin and Drogo knew the restoration this time would be hard to succeed so the only thing they could do was clench their teeth and hold on.

They would leave Sylvio to divide.

At this moment, Lufian was panicking.

'What should I do?

'Elora's restoration is at the final moment. There can't be any mistakes.

'However, the Soul Devourers clearly did not come in peace.

'The five Leila rulers are together but we're the ones at a disadvantage.'

On the planet, of course, Elora heard the voice of Stark from the Soul Devourers. However, she did not have a way to handle this.

"Stark, how do you know we're restoring Elora's body?" Sylvio asked.

Before this, he used Zwei Arithmetics to tell the fortune of this event. Yet, it did not show any strange signs.

However, Stark appeared at the most critical moment.

Everyone knew that there would not be a peaceful solution next.

Would Stark let them finish the restoration?

Absolutely not!

So, what went wrong?

Zwei Arithmetics was Sylvio's proudest forbidden technique. It had served him for so long and gave him such achievements he had today.

So, Sylvio trusted it 100%.

"Haha, Sylvio, I know you must be so confused right now. How can your Zwei Arithmetics go wrong? But I won't tell you. I will make you feel scared of using your proudest forbidden technique. What do you think? Isn't this exciting?" Stark guffawed.

"No way! Zwei Arithmetics is a forbidden technique from the God Tier Civilization. Nothing will go wrong with it! Tell me! What did you use? How can you escape my Zwei Arithmetics?" Sylvio asked sternly.

What Stark said made him anxious.

If the Soul Devourers found a way to respond to Zwei Arithmetics, then Leila's biggest advantage would cease to exist.

Sylvio would never have believed that this could happen.

However, it was now uncertain.

After all, Sylvio had already met someone immune to Zwei Arithmetics before this.

It was David, whom Elora met in The Spirit Cage.

That was the first time Sylvio failed to see anything with Zwei Arithmetics and it caused him a huge backlash.

With that experience, Sylvio knew that someone could resist Zwei Arithmetics.

So, the Soul Devourers have found a way to deal with it.
