

Read I Am A Quadrillionaire Chapter 2475

I am a quadrillionaire chapter 2475-Time went back to the moment when the Robotia Lv 6 self- destructed.

Elora's head restoration was almost complete.

While she was rejoicing that her body would finally be restored, the Robotias Lv 6, equivalent to an Overlord, suddenly exploded. Its huge destructive power swept across the entire void, directly affecting the planet where Elora was. It destroyed the array and caused Elora's restoration to fail at a critical moment.

The feeling of being so close to the goal almost made Elora go crazy.

However, as an experienced Overlord who had lived for thousands of epochs, Elora changed her mentality in just an instant.

It was obviously impossible to restore her body now and it was useless to mull over it. What she should think about now was how to reduce the damage to herself.

The destructive power produced by the Robotia Lv 6's selfdestruction was getting stronger and stronger. Soon, it would reach its peak.

Elora knew that with her weakened soul currently, she might not be able to bear it.

In the current situation, no one could help her, so she had to find a way to save herself.

At this moment, a figure suddenly appeared in Elora's mind.

Only he could help her recover her soul power.

Gritting her teeth for the last time, she used her last soul power, forcibly opened a passage, left Leila, and entered The Spirit Cage.

An Overlord's soul could freely enter and exit between Leila and The Spirit Cage. It would not need any equipment.

For example, before David's mind power broke through to the Overlord Realm, he had to rely on the system to enter The Spirit Cage.

However, ever since his mind power had reached Overlord Realm, he could do it without the system. However, David had no idea yet.

In fact, The Spirit Cage was not just as simple as a virtual world. It was a space dedicated to the existence of souls.

It was like a parallel world.

The body could not enter, not even if they were an Overlord. Only the soul could enter.

Perhaps this was God's will in the dark.

After Elora's soul entered The Spirit Cage, it descended into Amber City, one of the eight main cities.

Leila.

After the super-large black hole produced by selfdestruction expanded to the extreme, it began to shrink rapidly and the void slowly calmed down.

However, space cracks ranging from hundreds of kilometers to tens of thousands of kilometers wide still existed.

They would not disappear in a short time.

It seemed to be telling the creatures who saw these that there was a terrible battle here in the past.

Over some time, the area of hundreds of millions of kilometers would be devoid of life.

It would be hard for Saints to approach.

Deities might be able to investigate a little further, but they had to be careful.

Once the Robotia Overlord's self-destruction residual power was triggered, ordinary Deities would regret ever going there.

The Overlord Realm's defective product of the Robotias blew itself up and died. Meanwhile, Stark, the superpower of the Soul Devourers, was wounded and escaped after a battle with Sylvio.

Only the four Overlords of Leila, Sylvio, Lufian, Valentin, and Drogo, remained on the scene.

Valentin regained mobility after Sylvio's treatment.

Although his injury has been alleviated, he was too seriously injured and would need a long time to fully recover.

At this time, Sylvio was performing Zwei Arithmetics to find the whereabouts of Elora.

The other three guarded at the side to prevent any Soul Devourers or Robotias from attacking.

Even though the possibility was small, they still had to guard against it.

Then, an illusory star map appeared in front of Sylvio. All kinds of stars were displayed on it.

The giant planet in the middle was Zwei Star.

Zwei Arithmetics would predict the past and future of a certain point of the universe using the movement of Zwei Star.

The Zwei Star was the most mysterious star in the universe. Its location would change unexpectedly and no one would know its exact location.

Rumors said that Zwei Star was the origin of the universe and that everything in the universe originated from there.
