

Read I Am A Quadrillionaire Chapter 2486

I am a quadrillionaire chapter 2486-Beanie and Thor smiled.

After knowing her for so long, they knew how special Pebbles was.

She could eat any treasure without consequences.

They bought all the treasures into the room during this time.

Based on their understanding of David, he would surely ask Pebbles to eat all she could until he came out of seclusion.

After the little girl was full, she fell asleep on her stomach.

Then, she woke up and continued to eat.

She would not leave the room before David came out.

Thor went on about his business while Beanie temporarily set aside her work to stay with Pebbles.

She dared not leave.

If something happened to the little girl, how would she explain herself to Master David?

None of her work was as important as this little girl in front of her now.

Beanie would only rest assured after she handed Pebbles safely to Master David.

Solar system, Earth.

Since he had just been to The Spirit Cage not long ago, David had no intention of re-entering it for a while.

Therefore, he just stayed on Earth to be with everyone.

With David around, the women seemed to work harder in their cultivation.

Time passed very quickly.

One day, David accidentally opened his system and discovered that his lavish points had exceeded the million mark.

It had reached as many as 1.08 million.

In other words, he could choose to upgrade either his Body or Mind.

After the upgrade, he would reach the second rank of Overlord Realm-Ancient Overlord Rank.

David felt unsafe since he ran into the mysterious person in The Spirit Cage, so he decided to break through his Mind first.

Anyway, he was on Earth and not going anywhere, so there was not much difference between partial Ancient Overlord Rank and Ancient Overlord Rank. It would be more than enough to handle everything.

His lavish points were only useful after he spent them. If not, they would just be numbers.

Immediately, David announced to everyone that he was going into seclusion.

He went back to his room, turned on the system, and clicked on the plus sign behind the Mind column.

Then, he used up one million lavish points to upgrade his Mind from Supreme level 10 to Ancient level 1.

One could imagine the process of upgrading.

The pain in the soul was truly unforgettable.

Even with David's willpower, he would have lingering fears every time his Mind was upgraded to a new rank. He did not want to experience it again.

However, if one wanted to improve one's strength, one had to go through pain.

After he upgraded his Mind, David let out a long exhale.

His clothes were drenched in sweat.

With just a thought, the sweat evaporated immediately.

His clothes were clean and fresh again.

As he was getting ready to get up and go out, David remembered that he had not been to The Spirit Cage for a long time.

So, why not take this opportunity to take a look?

After all, he needed to get more lavish points.

So, he still needed to be mindful of that need now and then.

Hence, David turned on the system again and chose to enter The Spirit Cage.
