I am a quadrillionaire chapter 2529-Arian felt numbed.

He thought to himself, 'What's going on? I just said something and they want to kill me!

'Even if I said something wrong, I can change.

'This is unnecessary, right?'

However, before he could even think, Egan approached him.

Arian was strong, but compared to Egan, one of the top three in Amber City, he was still very inadequate.

In Amber City, Salem was the veritable number one, followed by Egan and Heaven.

The three represented the highest combat power of Amber City.

Arian was a lot inferior to them.

It was almost impossible for Salem to kill Egan, who was on the same level, under normal circumstances.

However, it was very easy for Egan to kill Arian.

Arian could not even escape if he wanted to.

This was the gap in their strength.

Egan's sudden attack shocked Arian.

However, he came to his senses quickly.

Knowing that he was not Egan's match, he was going to escape. Saving his life was the most important thing.

What Arian did not expect was for Egan to attack with all his strength.

Before Arian had time to escape, Egan was already in front of him.

Plus, his right hand filled with a terrifying power was waving at Arian.

Egan had already used 100% of his strength in this punch, and his purpose was to kill Arian with one blow. He did not even want to give Arian the slightest chance.

Facing this mighty punch, Arian knew he could not escape so he could only use all of his might to block it.

At the same time, he knew he could not do so.

He sighed helplessly in his heart, 'Is my life going to end?'

He thought he could rely on the very powerful David, and yet he never thought that he would die because of David.

After such a strong punch, Arian would be severely injured even if he did not die.

He was not Egan's match so if he was severely injured, it would be impossible for him to escape.

At this moment, Arian felt very remorseful.

Why did he stick his nose into this mess?

How could an ordinary person like him interfere with a battle of the powerhouses?

He was simply asking for it!

However, it was too late for him to feel regret now that things had come to this stage.

As Arian was about to endure Egan's powerful punch, a huge force attacked him from the side, causing him to step away from where he was standing.

Coincidentally, he dodged Egan's fatal blow.

Thud!

A loud noise.

Egan staggered more than ten steps backward before shaking off the force. He stopped his body and a fiery pain came from his fist.

He looked closer.

If the one who had just punched him wasn't Mayor Salem, then who could it have been?

As the mayor of Amber City, Salem could not watch Arian, the captain of the Amber City law enforcement team, die in front of him.

The main reason was that Arian was very obedient.

He could not let Arian die just like this, so that was why he dragged his injured body to forcefully save Arian.

After Salem forcefully fought off Egan and saved Arian, he was in a lot of pain.

His body, severely injured by Agatha, was even more injured now.

"Pfft!"

Salem could not stop himself from vomiting more blood. His breath weakened again.
