I am a quadrillionaire chapter 2566-Immediately afterwards...

Boom!

Snap!

Another Robotia Lv 6 died on the spot.

The rest only came to their senses after Lufian killed two Lv 6s one after another.

‘This human is a Heavenly Overlord! We are no match! Run! Mother, save us!’

The three Robotia Overlords ignored the golden flames on their bodies and turned into three rays of light before fleeing in the direction of their Mother.

The rest of Lv 5s, who were still struggling to survive, also started to flee in a panic.

Lufian chased after the three Lv 6s.

As for the rest of the Lv 5s, he did not care about them at all as the Divine Realm Robotias would be reduced to ashes by the Overlord Inferno in a short time.

How could a Deity resist a Heavenly Overlord’s Inferno cast?

At most, they could only survive a little longer.

Seeing that Lufian was about to catch up with one of them, the Robotias’ Mother roared, “Human, you have successfully angered me. How dare you destroy so many of my descendants! I want you to be their burial offering today! Not only you, but all Leila’s creatures will die!”

Lufian was not scared of such a threat.

He had not even given his all.

The goal was to give the Robotias a taste of what real fear was.

“Are you threatening me? Haha! It’s still uncertain who will die!” Lufian grinned.

He accelerated again and came behind the last Lv 6 to punch it in the back.

Boom!

Another Overlord Robotia disintegrated.

The red crystal hub appeared in front of Lufian’s eyes. Once again, he grabbed and crushed it.

Back then, Elora could not even hurt a Lv 6 with her Emerald Lotus Sword, but now, it was so vulnerable in front of Lufian.

It could not even resist a simple punch before it was blasted into countless pieces.

After killing three Lv 6s in a row, and casting Overlord Inferno to kill countless low-level Robotias, Lufian had temporary relief from his anger, but he was still not satisfied.

The goal of coming here today was not to destroy these small potatoes but to completely destroy the Robotias’ Mother.

He wanted to make the Robotias disappear from the universe forever.

If Mother was not destroyed, it would continue to devour resources and create more Robotias. There would be a day that they would bounce back.

Just as Lufian aimed at the next Lv 6, a huge tentacle reached toward him.

It was one of the Robotias’ Mother’s many tentacles.

Lufian was not afraid either.

He approached it straightaway.

As a Heavenly Overlord, he still did not know what fear was.

Coupled with the influence of his violent personality, he would not backdown.

Charging at the tentacle, Lufian’s body suddenly shone golden.

An equally huge and terrifying golden body appeared slowly. This golden body was so big that it seemed even bigger than the Robotias' Mother.

With such a huge body, the dozens of mechanical behemoths were nothing in front of him.

He could kill one of them with just a slap.

This was the real strength of Heavenly Overlord Lufian.

The Eternal Golden Body that David used when he first entered Eternal Realm was nothing short of trivial compared with Lufian's massive form.

He was not even as big as Lufian's fingernail.

A mouthful of phlegm could immediately drown David's Eternal Golden Body.

The stronger the strength and the higher the realm, the larger the size of the golden body.

In fact, Lufian did not expect the Robotias' Mother to be so strong. He thought that the Mother of the Robotias was just big, not his match.

If the other party had the strength of a Heavenly Overlord, they would have invaded Leila long ago. Would Leila still exist now?

The reason he exerted all his strength was that he did not want to waste any more time. He wanted to destroy this strange-looking monster in one go and completely wipe out the Robotias.

The Soul Devourers were still waiting for him!
