I am a quadrillionaire chapter 2569-“Haha! Are you afraid now? Let me tell you, it’s too late!

When the Robotias and the Soul Devourers attacked Elora, you were destined to be destroyed by me, Lufian. You can attack anyone out there, but you just had to pick my woman.”

Lufian was telling the truth.

If the person seriously injured was Valentin or Drogo, and not Elora, the situation today would be very different.

At least Lufian would not have forcibly upgraded himself to Heavenly Overlord Rank.

His other violent personality would have no chance to come out and fuse with him.

Then, Lufian would still be the original Lufian.

The Mother of the Robotias quickly swung its remaining tentacles to pull back the void. At the same time, it kept backing away from this terrifying human being.

A Heavenly Overlord was far beyond what it could deal with.

If he was just a partial Heavenly Overlord, Mother would not have chosen to escape so desperately even if there were three, or even five, of them

It still had a lot of trump cards that it had not dealt yet.

However, those methods could only be used on partial Heavenly Overlords at best. It was not completely useless against Heavenly Overlords, but it would be no different to scratching an itch for them.

“Human, she’s just a woman! I’ll find you as many as you want. Why fight to the death for a woman? It’s not worth it!”

“Elora is not an ordinary woman. She is my woman and I will not allow anyone to hurt her. I will kill whoever dares to hurt her! Plus, do you think a tentacle

monster like you is worthy for me to fight to the death? Don't you know that I've been teasing you all the time?" Lufian said while chasing Mother.

It was not that he could not catch up, but it was because he did not want to catch up too quickly.

What he wanted was for the other party to experience despair in the process of trying to escape.

An interesting scene formed in the cosmic void.

A chubby tentacle monster was fleeing while a golden giant followed closely behind.

The two sides maintained their distance constantly.

No more and no less.

If Lufian wanted to deal with the other party, he would be able to catch up with it in an instant and wipe out Mother completely.

"Lufian, I admit that a Heavenly Overlord is very strong. I can't beat you and I'm not your match, but I have been in the universe for countless years, so how can I not have any trump cards? Don't push me or neither side will win, or we might even end in mutual destruction!"

"Are you trying to f\*cking scare me? How dare a mere partial Heavenly Overlord like you say something as arrogant as ending in mutual destruction with a real Heavenly Overlord?"

I wonder where you got the courage! Do you think I believe you?"

"You don't have to believe me, but it's true! I have something that was left to me by my master to save my life. Once I use it, even a real Heavenly Overlord will die on the spot."

Mother hoped that its words would calm Lufian and make him stop pursuing.

It was a pity that after Lufian fused with his berserk personality, he was no longer threatened, let alone feel fear.

He just wanted to completely destroy the tentacle monster at its most desperate moment as vengeance for Elora.

“Hahaha! Can you put in more effort when you’re making up stories? Look at you! You’re not only strangely shaped, but you’re also disgusting. Who will want to be your master and raise a monster like you? They are likely to have worms for brains. Do you even believe what you just said?” Lufian did not believe Mother at all.

There were indeed many great Almighties in the universe who would keep pets.

However, why would someone raise such a disgusting thing as a tentacle monster?

Anyway, Lufian felt that normal people would not do it.

“How presumptuous! Lufian, you can bad mouth me but you can’t do that to my master. He is a rare great Almighty in the universe. You are just a mere Heavenly Overlord, so you are not qualified to talk about him like that!” Mother immediately roared.
