

Read I am a quadrillionaire chapter 2572

I am a quadrillionaire chapter 2572-In other words, there should only be one Heavenly Overlord in a hundred level 9 civilizations. Yet, it was not a certainty.

That was why it dared to attack Leila.

However, the results were somewhat unsatisfactory.

Mother ran into something highly improbable.

“Lufian!

“Are you sure you want to do this?

“Have you thought about the consequences?

“Do you want to die together?

“It’s not easy for you to reach Heavenly Overlord.

“With your talent, you may have the opportunity to become a great Almighty in the future, suppress all realms in the universe, and be respected by all.

“Why should you ruin your bright future just to take advantage of this moment?

“She’s just a woman!

‘When you become a great Almighty, the women of Heavenly Overlord will be at your disposal.

“They will all be countless times stronger than Elora!

“Just give up!

“I promise you! From now on, we will go our separate ways, and the Robotias will never plot against Leila again, how about that?

‘We can even join forces and invade other level 9 civilizations together.

‘We can split the benefits 50/50!

“If you feel that you are at a disadvantage, I can even accept a 40/60 split!

“30/70? You should be happy with 30/70, right?”

“Just tell me, what should I do so that you’ll stop?”

Mother’s anxious voice kept coming from the main form.

If violence did not work, then it would go soft on him.

Hopefully, it could talk Lufian into stopping.

Although it had a treasure that could fight against Heavenly Overlords in its hands, its owner gave the treasure to save its life.

It only had one, and moreover, it had a single use.

Once used, it would be depleted.

Lufian’s two golden giant hands did not stop because of what Mother said. They continued to grab Mother’s body.

He did not take its threats to heart at all.

Was there any treasure that could threaten a Heavenly Overlord?

The answer was yes.

There was.

Not just one but a lot of them too.

After all, the vast universe was too big.

Heavenly Overlord Rank was only the last level of Overlord Realm.

Moreover, Overlord Realm was not the end.

There were stronger realms above the Overlord Realm.

In the vast and boundless universe, the powerhouse beyond Overlord Realm had another title.

The great Almighty!

That was the horrifying truth.

They could suppress the universe, and a level 9 civilization would be nothing more than an ant's nest compared to the great Almighty.

Of course, a Heavenly Overlord was not weak.

They were regarded as very strong. Yet, compared to the great Almighty, they were far behind.

The means possessed by the great Almighty were not something an Overlord could understand.

The great Almighty had treasures that could threaten a Heavenly Overlord, but they were not something Mother had.

If Mother was telling the truth, why would the Robotias need to team up with the Soul Devourers?

They would have invaded Leila a long time ago.

Not even the five Leila rulers could stop them, even in their prime.

Having been neighbors for so many years, Lufian knew that the Robotias would not have a treasure of this power.

Naturally, he was not threatened.

Lufian thought, 'Was it trying to shock and stop me, a Heavenly Overlord, with just a few words?

'It's looking down on me!'

As for the alliance mentioned by Mother, why would Lufian need to cooperate with a tentacle monster to do anything?
