I am a quadrillionaire chapter 2579-“Actually, I was thinking the same thing as you. My dream is to leave Leila, conquer the universe, and become the master of the universe. What can't I have when I achieve that?

Women, status, everything will be at my fingertips, but what a pity. This body won't let me do that so I don't have a choice. Elora is an obsession so I must handle her carefully. Otherwise, the consequences will be very serious. You're the same too. You could have chosen anyone but you just had to choose Elora. If that's the case, you can't blame me.”

After Lufian finished speaking, he did not give the other party a chance to reply. His body disappeared instantly.

Just now, from the voice of the other party, he had already judged the exact location of Mother.

Now, he would go and see what the hell this guy was.

He wanted to know what was so special about the great Almighty's pet.

Before the fusion of the dual souls, Lufian would not spew so much nonsense once he went berserk.

After the fusion, he was very influenced by Lufian's talkativeness.

Whether he would offend the so-called great Almighty after he killed Mother was not in his consideration.

After the fusion, he had absolute confidence that he would be able to reach that step in the future.

“Lufian! You are so stubborn. Then let's die together!”

Mother yelled.

It did not expect things to develop to this stage.

Not only was Lufian's strength far beyond its expectations, but it was also afraid of death.

If it had known this, it would have listened to its master and not provoked level 9 civilization, Leila.

Since the matter had escalated to this point, it was useless to say anything more.

Mother certainly would not make it easy for the other party who wanted to kill it.

As Lufian approached quickly...

Woosh!

The red rays attacked again.

This time, it increased from ten to forty, half the total number.

It showed that Mother had completely given up convincing Lufian and was ready to fight him desperately.

For a partial Heavenly Overlord, controlling forty red rays at one time meant fighting with its life.

It would not take long before it would turn into a mummy.

Of course, the power was self-evident after paying such a high price.

Forty red rays were not comparable to ten.

Although Lufian's strength had skyrocketed since he went berserk, Mother was desperate and had exerted half the power of the treasure left by the great Almighty.

Bang! Bang! Bang!

Lufian moved forward quickly while dodging and blocking the incoming rays.

Both Lufian and the red rays' speed had reached a limit.

Their movements were completely invisible to the naked eye.

The sound of the shattering void could be heard occasionally.

Lufian dodged the rays. Then, the rays retracted to the bottom of the egg before shooting out again, continuing the battle.

In this way, they moved forward a little.

Finally, due to an oversight, Lufian's right foot was caught by a ray and his body froze for a moment.

In that blink of an eye, dozens of light rays swarmed him.

Pfft! Pfft! Pfft!

They penetrated immediately into Lufian's body, turning him into a hedgehog.

At the same time, an energy, refined to the extreme, overflowed from the red rays and began to continuously destroy Lufian's body.

Even though Lufian's Heavenly Overlord's body had become strong to a certain extent and had super strong selfrecovery, it still could not withstand such torment.

All this came from the treasure given to Mother by the great Almighty.

Lufian stood motionless, his body was covered with dozens of red rays, making him look like a hedgehog.

"Cough cough..."

His body was severely injured. He started coughing up blood from his mouth, i

"Lufian, since you are seeking death, I will help you!"
