I am a quadrillionaire chapter 2581-As the red rays disappeared, Lufian tried moving his body slowly.

Each time he moved, he felt excruciating pain.

This pain was not something ordinary people could bear.

It would be a lie to say that the attack did not cause damage to Lufian.

No matter how inferior the great Almighty's thing was, it was not something a Heavenly Overlord could handle.

Fortunately, after Lufian went completely berserk, his strength skyrocketed, and the strength of his body also greatly improved. That was why he could barely contain it.

"Hehe, it hurts so f*cking bad!" Lufian grinned.

It was a horrifying grin.

Lufian had been used as a target for so long, and he was not the type to repay grievance with kindness.

He would return the grudge tenfold, even a hundredfold.

After all forty red rays disappeared, Lufian clenched his fist and stomped his foot.

Boom!

The body shot out again.

Without the restraint of the red light rays, he was faster than before.

Now, he was eager for revenge.

Even though Lufian was inside an egg, the egg was still bigger than a lot of living planets in Leila.

Just as Lufian was about to reach his destination, the halo from the red crystals suddenly became brighter and brighter.

Then, they gradually turned from dark red to crimson.

The energy in the air was so thick and viscous that it began to be overwhelming.

'What is this?' Lufian thought.

Before Lufian could understand, he heard Mother's crazy voice.

"Lufian, didn't you ask me if I've run out of trump cards? Let me tell you that I haven't!

This is my last trump card. If you can survive, then congratulations, you have won. If you can't, then you should just die with me!

"Right, I forgot to tell you. Even if you make it, my master will come to avenge me when he realizes that I am dead. When that happens, I'd like to see how a Heavenly Overlord like you can resist my master. He's a great Almighty who can suppress an entire region of the universe! Haha! Let's die together!"

As Mother said that, the surrounding red light intensified greatly.

From a distance, one could only see a colossal egg, covered in cracks, with intense light emanating from within.

A terrifying force was brewing inside.

It felt like it would explode completely soon.

Considering the magnitude of this energy, a Level 8 civilization would be utterly destroyed if it were still present when the egg exploded.

This showed how powerful the power was.

Lufian was right in the center of the egg.

The energy around him began to become overwhelming.

Oh no!

He was shocked and immediately realized that something was wrong.

Mother was activating the extremely rich energy inside the egg so that it could die with Lufian.

It was too late to turn back now.

So, Lufian could only move forward and try to stop the big explosion before it happened.

However, before Lufian could get there, he heard Mother's voice again.

"Lufian, come on! Perish with me! This is the price of your stubbornness, hahaha!"

Boom! Boom! Boom!

A series of explosions sounded inside the dome.

The energy was so intense that it set off a chain reaction the moment it detonated.

Boom! Boom! Boom!

Lufian no longer tried moving forward. Instead, he turned and ran.

From the void, the light spilling out from the cracks in the egg grew increasingly brilliant.
